Phil Edmonston, Canada's
automotive "Dr. Phil,"
pulls no punches. He
says there's never been a
better time to buy a new
car or truck, thanks to a
stronger Canadian dollar
and an auto industry
offering reduced prices,
more cash rebates, low
financing rates, bargain
leases, and free auto
maintenance programs. In
this all-new guide he
says: Audis are beautiful

to behold but hell to own (biodegradable transmissions, "rodent snack" wiring, and mind-boggling depreciation) Many 2011-12 automobiles have "chin-to-chest head restraints, blinding dash reflections, and dash gauges that can't be seen in sunlight, not to mention painful wind-tunnel roar if the rear windows are opened while underway. Ethanol and hybrid fuel-saving claims have more in common with Harry Potter than

the Society of Automotive Engineers. GM's 2012 Volt electric car is a mixture of hype and hypocrisy from the car company that "killed" its own electric car more than a decade ago. You can save \$2,000 by cutting freight fees and "administrative" charges. Diesel annual urea fill-up scams can cost you \$300, including an \$80 "handling" charge for \$25 worth of urea.
