During the Cold War, defenses detected and tracked manned bomber aircraft, hostile submarines and missiles launched from the other side of the world. This book shows how these defenses evolved from fledgling stop-gap as part of its defense strategy against the Soviet Union, the U.S. was forced to establish means of massive long-range attack in response to Soviet advancements in weaponry. These

measures into a complex fabric of interconnected combinations of high-tech equipment over 40 years. Maps illustrate the extent of the geographic coverage required for these warning and response systems and charts display the time frames and vast numbers of both people and equipment that made up these forces.

Canadian automakers and dealers face bankruptcy and Toyota battles unprecedented quality-control problems, Lemon Aid guides steer the confused and anxious buyer through the economic meltdown unlike any other car-and-truck books on the market. Phil Edmonston, Canada's automotive "Dr. Phil" for more than 40 years, pulls no punches. In this all-new guide he says: Chrysler's days are numbered with the dubious help of Fiat. Electric cars and ethanol power are PR gimmicks. Diesel and natural gas are the future. Be wary of "zombie" vehicles: Jaguar, Land Rover, Saab, and Volvo. Mercedes-Benz -- rich cars, poor quality. There's only one Saturn you should buy. Toyota -- enough apologies: "when you mess up, 'fess up." **Leading Sustainably** Taylor & Francis Covers all U.S. and Canadian models of Toyota Camry, Avalon, Solara and Lexus ES 300/330 models. *YOU: The Owner's Manual for Teens* Dundurn In this update of the *Acoustic Guitar Answer Book*, Sharon Isbin, the classical guitar virtuoso who heads the Juilliard School Guitar Department, answers 50 essential questions about performing, practicing,

which taught people about the inner workings of their bodies—and how to keep them running strong. But you know what? There's a big difference between an adult's body and your body, between adults' health mysteries and your health mysteries, between their questions

and your questions. So, teens, this book is for YOU. We'll talk to you about the biological changes that are happening in your brain and your body. We'll show you how to get more energy, improve your grades, protect your skin, salvage more sleep, get fit, eat well, maximize your relatio

nships, make decisions about sex, and so much more. In fact, in these pages, we answer hundreds of your most pressing health-related questions. And you know what else? We are going to treat you like adults in one very important way: We're not going to preach. We're going to give you straight-up information that you can

use to make smart choices about how to live the good life—and enjoy every second of it. Starting right now. The Manual of American Water Works Moon Travel Guides: Make Your Escape!
