Volvo 240 Service Manual 1983 Through 1993 Haynes Publishing As U.S. and Canadian automakers and dealers face bankruptcy and Toyota battles unprecedented quality-control problems, Lemon-Aid guides steer the confused and anxious buyer through the economic meltdown unlike any other car-and-truck books on the market. Phil Edmonston, Canada's automotive "Dr. Phil" for more than 40 years, pulls no punches. In this all-new guide he says: Chrysler's days are numbered with the dubious help of Fiat. Electric cars and ethanol power are PR gimmicks. Diesel and natural gas are the future. Be wary of "zombie" vehicles:

Jaguar, Land Rover,
Saab, and Volvo.
Mercedes-Benz -- rich
cars, poor quality.
There's only one
Saturn you should buy.
Toyota -- enough
apologies: "when you
mess up, 'fess up."
