The Car Book 2007 Springer Science & Business Media

Volume One traces the history of Opel and Vauxhall separately from inception through to the 1970s and thereafter collectively to 2015. Special attention is devoted to examining innovative engineering features and the role Opel has taken of providing global platforms for GM. Each model is examined individually and supplemented by exhaustive

supporting specification tables. The fascinating history of Saab and Lotus begins with their humble beginnings and examines each model in detail and looks at why these unusual marques came under the GM Banner. Included is a penetrating review of Saab through to its unfortunate demise. Volume Two examines unique models and variations of Chevrolet and Buick manufactured in the Southern Hemisphere and Asia but never offered in North America. Daewoo, Wuling and Baojun are other Asian brands covered in detail. This volume concludes with recording the remarkable early success of Holden and its continued independence through to today. Volume Three covers the smaller assembly operations around the world and the evolution of GM's export operations. A brief history of Isuzu, Subaru and Suzuki looks at the three minority interests GM held in Asia. The GM North American model specifications are the most comprehensive to be found in a single book. Global and regional sales statistics are included. GM executives and management from around the globe are listed with the roles they held. An index ensures that these volumes serve as the ideal reference source on GM.

Classic Car Museum Guide Pen and Sword Transport

This book examines the dramatic increase in automotive assembly plants in the former Socialist Central European (CE) nations of Czechia, East Germany, Hungary, Poland, and Slovakia from 1989 onwards. Enticed by relatively lower-wage labour and significant government incentives, the world's largest automakers have launched more than 20 passenger car assembly complexes in CE nations, with production accelerating dramatically since 2001. As a result, the annual passenger car production in Western Europe declined by more than 20% between 2001 and 2015, and alternatively in the CEE it increased by nearly 170% during this period. Drawing on case studies of 25 current and former foreign-run assembly plants, the author presents a rare historical account of automotive foreign assembly plants in the CE following this dramatic geographic shift. This book will expand the knowledge of policy-makers in Europe in relation to their pursuits of FDI and will be of great interest to scholars and students of business, economic history, political science, and development.

With a sly blend of fantasy, humor, and paranormal adventure, Kevin Hearne has established a reputation as the trickster god of action-packed mash-ups. His signature creation, Atticus O'Sullivan, is a folk hero for the twenty-first century, battling legendary beasts, shadowy mystics, and demonic demigods from around the world. Now this addictive eBook bundle brings together the first six novels of The Iron Druid Chronicles (with bonus novellas and short stories) in one supersized dose of genre-smashing mayhem: HOUNDED HEXED HAMMERED TRICKED TWO RAVENS AND ONE CROW (NOVELLA) TRAPPED HUNTED GRIMOIRE OF THE LAMB (NOVELLA) Also includes the short stories "Clan Rathskeller" and "Kaibab Unbound," as well as a special preview of Kevin Hearne's upcoming novel A Plague of Giants! Atticus O'Sullivan, last of the Druids, lives peacefully in Arizona, running an occult bookshop and shape-shifting in his spare time to hunt with his Irish wolfhound. His neighbors and customers think that this handsome, tattooed Irish dude is about twenty-one years old—when in actuality, he's twenty-one centuries old. Not to mention: He draws his power from the earth, possesses a sharp wit, and wields an even sharper magical sword known as Fragarach, the Answerer. Unfortunately, a very angry Celtic god wants that sword, and he's hounded Atticus for centuries. Now the determined deity has tracked him down, and Atticus will need all his power—plus the help of a seductive goddess of death, his vampire and werewolf team of attorneys, a bartender possessed by a Hindu witch, and some good old-fashioned luck of the Irish—to kick some Celtic arse and deliver himself from evil. Praise for Kevin Hearne and The Iron Druid Chronicles "Neil Gaiman's
