First Supplementary Catalogue of the Library of the Royal Colonial Institute Asm International

This book analyzes the role that human forms play in visualizing practical information and in making that information understandable, accessible, inviting, and meaningful to readers—in short, "humanizing" it. Although human figures have long been deployed in practical communication, their uses in this context have received little systematic analysis. Drawing on rhetorical theory, art history, design studies, and historical and contemporary examples, the book explores the many rhetorical purposes that human forms play in functional pictures, including empowering readers, narrating processes, invoking social and cultural identities, fostering pathos appeals, and visualizing data. The book is aimed at scholars, teachers, and practitioners in business, technical, and professional communication as well as an interdisciplinary audience in rhetoric, art and design, journalism, engineering, marketing, science, and history.

Direct Support and General Support Maintenance Manual (including Repair Parts and Special Tools List) for Periscope, Battery Command, M65 W/E, (1240-00-678-5577). ASM International

The 10,000 entries (arranged from A to Z) are supplemented by hundreds of figures (approximately 700) & tables (more than 150) that clearly demonstrate the principles & concepts behind important manufacturing processes, illustrate the important structures, or provide representative compositional & property data for a wide variety of ferrous & nonferrous materials, plastics, ceramics, composites (resin-metal-carbon-&-ceramic-matrix) & adhesives. "Technical Briefs" provide encyclopedic-type coverage for some 64 key material groups. Each Technical Brief contains a "Recommended Reading" list to guide the user to additional information. Published by ASM International (tm), Materials Park, OH 44073. Energy Research Abstracts Routledge

This revised and updated color edition of How to Rebuild the Small-Block Ford walks you step by step through a rebuild, including: planning your rebuild, disassembly and inspection, choosing the right parts, machine work, assembling your engine, and first firing and break-in.
