is a comprehensive
self-study guide for
the 2009
International Energy
Conservation Code.
Ten study sessions
cover administration

and enforcement as well as energy efficiency in residential and commercial structures. A 20-question quiz is provided at the end of each study session.

Chevrolet Corvette, 1968-1982 CarTech Inc Highlands, North Carolina, is not just home to cool mountain breezes, breathtaking views and world-class shopping and restaurants, it also boasts a rich and vibrant history. What started as the dream of two developers in 1875 has grown from a tiny hamlet into a beloved home and home-away-from-home for many. Join sixth-generation Highlands native Isabel Hall Chambers and her husband, Overton Chambers, as they share

charming tales of old Highlands, from lazy summer days playing "town ball" to ice-skating and celebrating Christmas. Woven into this collection of articles from the Laurel are true stories of some of the area's grand old homes, its traditions and an array of interesting residents and visitors through the years, as told by fathers and grandfathers, old postcards, letters, deeds and even tombstones. Everyone who loves this unique mountain community will delight in Remembering Highlands.

CEN Review Book and Study Guide 2019-2020

Jossey-Bass

Learn how to drive on snow, ice, rocks, mud and hills, plus how to choose and use off-road tires, winches and other specialty gear. Every 4WD owner should own this handy book.

Chariots for Apollo

WestBow Press

An English Car Designer Abroad is the humorous and personal account of a life spent working on the design of some of the world ' s best known cars. Commencing his career as a designer at Vauxhall Motors, Luton in 1973, Peter Birtwhistle then left the UK in 1977 to take a position abroad, at Audi in Germany, where he lived for the rest of his working life. From Audi, his career took him to Porsche in Stuttgart, and eventually, in 1988, to the Japanese company Mazda, with whom he would help develop a Design Centre close to Frankfurt,

eventually becoming Chief Designer for Mazda Motor Europe. During his career, Birtwhistle was involved in the design of some very significant cars and in his work and travels, crossed the paths of many significant personalities from the car industry. Car design has changed enormously since the time he commenced his career, and for Birtwhistle it was clear, his story needed to be documented before it was lost in time. Featuring original photographs and illustrations from the author ' s own collection, this highly humorous and very personal story creates a fascinating collage of anecdotes and historical facts, not only from the secretive world of car design, but also his private life.

Go Like Hell Veloce Publishing

This is one of the most significant military books of the twentieth century. By an

outstanding soldier of independent mind, it pushed forward the evolution of land warfare and was directly responsible for German armoured supremacy in the early years of the Second World War. Published in 1937, the result of 15 years of careful study since his days on the German General Staff in the First World War, Guderian's book argued, quite clearly, how vital the proper use of tanks and supporting armoured vehicles would be in the conduct of a future war. When that war came, just two years later, he proved it, leading his Panzers with distinction in the Polish, French and Russian campaigns. Panzer warfare had come of age, exactly as he had forecast. This first English translation of Heinz Guderian's classic book - used as a textbook by Panzer officers in the war - has an introduction and extensive background notes by the modern English historian Paul Harris.

Chilton's Repair & Tune-up Guide, Escort, Lynx, 1981-82 Information Today

A collection of articles published in Trailer Life magazine.

Sports Cars Illustrated Untreed Reads

We should thank a pollinator at every meal. These diminutive creatures fertilize a third of the crops we eat. Yet half of the 200,000 species of pollinators are threatened. Birds, bats, insects, and many other pollinators are disappearing, putting our entire food supply in jeopardy. Protecting Pollinators breaks down the latest science on environmental threats and takes readers inside the most promising conservation efforts. Efforts range from cities creating butterfly highways to citizen scientists monitoring migration. Along with inspiring stories of revival and lessons from failed projects, readers will find practical tips to get involved.

And they will be reminded of the enigmatic Lakota holy man, magic of pollinators--the iconic monarchs, dainty hummingbirds, and homely bats alike who bring food to our tables.

Ford Bronco Ascencia Test Prep

Fiery aristocrat, Eden Rose, uprooted from her native Scotland, has tended a foundering marriage and failing ranch at the corner of Crazy Woman Creek and the Powder River for a decade. Best friend, backwoods spitfire Maddie True, has her own woes a few miles away: widowed with a passel of young children, and caretaker to her addled father. Abandoned by her husband during the height of Wyoming Territory 's worst drought in history, Eden depends on her inept brother, Aiden, to see her through the coming winter. But when he disappears into the wild Bighorn mountains, she shuns Maddie 's fearful cautions, teaming with

Intah, to find her brother before the wicked snow holds them all hostage. “ Light of the Northern Dancers is a powerful novel of a woman ’ s journey, thought-provoking and unsettling in its authenticity and unflinching honesty. ” — Susan Wiggs, NYT Bestselling Romance Author “ Half of what happens to us may have reason, the rest is chaos. Robin F. Gainey ’ s second novel, Light of the Northern Dancers, has this brand of existentialism. It ’ real and it doesn ’ t let go! ” — Tom Skerritt, Award Winning Actor, Writer, Director
Inside Law Enforcement (Set)
American Chronicles
GIs returning after World War II created an entirely new automotive market niche when they bought surplus Jeeps and began exploring the rugged backcountry of the American West. This burgeoning market segment, which eventually

became known as sport utility vehicles (SUVs), numbered about 40,000 units per year with offerings from Jeep, Scout, Toyota, and Land Rover. In 1966, Ford entered the fray with its Bronco, offering increased refinement, more power, and an innovative coil-spring front suspension. The Bronco caught on quickly and soon established a reputation as a solid backcountry performer. In Baja, the legendary accomplishments of racers such as Parnelli Jones, Rod Hall, and Bill Stroppe further cemented the bobtail's reputation for toughness. Ford moved upstream with the introduction of the larger Bronco for 1978, witnessing a huge increase in sales for the second-generation trucks. The Twin Traction Beam front end was introduced in the third generation, and further refinements including more aerodynamic styling, greater luxury, and more powerful fuel-injected engines came on board in the generations that followed. Through it all, the Bronco retained its reputation as a tough, versatile, and comfortable rig, both on and off the paved road. With the reintroduction of the Bronco for 2020, Ford is producing a vehicle for a whole new generation of enthusiasts that looks to bring modern styling and performance to the market while building on the 30-year heritage of the first five generations of the Bronco so dearly loved by their owners. From the development process and details of the first trucks through the 1996 models, author Todd Zuercher shares technical details, rarely seen photos, and highlights of significant models along with the stories of those people whose lives have been intertwined with the Bronco for many years. This book will have new information for everyone and will be a must-have for longtime enthusiasts and new owners alike! p.p1

Houghton Mifflin Harcourt

The United States Secret
Service, first published in
1960, is a fascinating look at
the activities of this branch of
the Treasury Department.
From the establishment of the
Service through the 1950s,
the book examines the
Service's history: from
assassination attempts and
protecting the President, to
crime-fighting responsibilities
such as finding counterfeit
currency, investigating fraud

and government corruption.

Several chapters describe
efforts by the Nazis and the
Soviet Union to produce high-
quality counterfeit currency in
an effort to destabilize the
U.S. economy. Included are
12 pages of illustrations.

Authors Waler Bowen and
Harry Neal were long-time
members of the Service.

Hayden Lake: A Brief Primer

describes the popular North Idaho Lake and its watershed. The book deals with matters as simple as access to the lake and its watershed. The book describes of the complex underlying geology of the lake and its immediate surroundings, the flora and fauna of the lake and its watershed and a brief history of man's impacts on the lake and watershed. Building on these elements the inner workings of the lake and watershed's hydrology, limnology, and aquatic biota is discussed. A final chapter outlines the challenges and opportunities in managing the quality of the watershed and the lake into the future.

Automotive News BoD — Books on Demand

The chapters in this book were originally published weekly, as individual columns in Clay Today, a local, county-wide newspaper in northeast Florida. In the writing of

these columns, Reverend Bill Register has drawn on his extensive experience as a pastor, family man and successful businessman, to offer the reader an eclectic variety of thought-provoking, inspirational, and challenging messages.

Light of the Northern Dancers
Trailer Life Publications
Explains that the static stability factor is an indicator of a vehicle's propensity to roll over, and that US government ratings for vehicles do not reflect differences in rollover resistance. This report states that the 5-star system should allow discrimination among vehicles and incorporate results from road tests that measure vehicle control.

Car Design Review Pickle Partners Publishing

Today's news is filled with stories about the federal law enforcement agencies. We hear about the deportation of undocumented immigrants by ICE agents, the declassification of once top-secret information from the CIA, and the role of the FBI in the 2016 presidential election. These texts not only make clear the wide-ranging impact of these governmental organizations, but also highlight less-known tasks and responsibilities that they carry out. Readers will learn how each

agency's role differs and pick up fascinating details about the jobs of the dedicated professionals who work there. Sidebars offer extra information, while back matter sections suggest various channels for learning more. Features include: Provides up-to-date, even-handed examinations of agencies that have been front and center in the national conversation in recent years. Useful for both Social Studies units and career awareness. Relevant to both the Civic and Political Institutions and the Rules, Processes, and Laws sections in the Civics area of the C3 Framework for Social Studies. Chapter Notes and Further Reading sections provide additional resources for study.

AJ's Birthday Surprise Chilton's Total Car Care Repair

Haynes disassembles every subject vehicle and documents every step with thorough instructions and clear photos. Haynes repair manuals are used by the pros, but written for the do-it-yourselfer.

The United States Secret Service McFarland

Important factor in political

decision-making is a public opinion as well. Therefore, it is very important to raise global ecological awareness and wider public education regarding ecology. Goal of this book is to bring closer to the readers new drive technologies that are intended to environment and nature protection. The book presents modern technique achievements and technologies applied in the implementation of electric vehicles. Special attention was paid to energy efficiency of EV's. Also today's trends, mathematical models and computer design elements of future cars are presented.
