Manuals N. America, Incorporated
Dedicated to the Sailors and
Marines who lost their lives on
the final voyage of USS
Indianapolis and to those who
survived the torment at sea
following its sinking. plus the
crews that risked their lives in
rescue ships. The USS Indianapolis
(CA-35) was a decorated World War
II warship that is primarily
remembered for her worst 15
minutes. . This ship earned ten
(10) battle stars for her service
in World War II and was credited
for shooting down nine (9) enemy
planes. However, this fame was
overshadowed by the first 15

minutes July 30, 1945, when she was
struck by two (2) torpedoes from
Japanese submarine I-58 and sent to
the bottom of the Philippine Sea.
The sinking of Indianapolis and the
loss of 880 crew out of 1,196
--most deaths occurring in the 4-5
day wait for a rescue delayed --is
a tragedy in U.S. naval history.
This historical reference showcases
primary source documents to tell
the story of Indianapolis, the
history of this tragedy from the
U.S. Navy perspective. It recounts
the sinking, rescue efforts, follow-
up investigations, aftermath and
continuing communications efforts.
Included are deck logs to better
understand the ship location when
she sunk and testimony of survivors
and participants. For additional

historical publications produced by the U.S. Naval History and Heritage Command, please check out these resources here: <https://bookstore.gpo.gov/agency/naval-history-heritage-command> Year 2016 marked the 71st anniversary of the sinking and another spike in public attention on the loss -- including a big screen adaptation of the story, talk of future films, documentaries, and planned expeditions to locate the wreckage of the warship.
