What pop culture from *The Hobbit* to *The Office* reveals about modern politics—from the authors of *Homer Simpson Marches on Washington*: “Fun and engaging.” —William Irwin, author of *Black Sabbath* and *Philosophy* It’s said that the poet Homer educated ancient Greece. Joseph J. Foy and Timothy M. Dale have assembled a team of notable scholars who argue, quite persuasively, that Homer Simpson and his ilk are educating America and offering insights into the social order and the human condition. Following *Homer Simpson Goes to Washington* (winner of the John G. Cawelti Award for Best Textbook or Primer on American and Popular Culture) and *Homer Simpson Marches on Washington*,

this exceptional volume reveals how books like J. R. R. Tolkien’s *The Hobbit* and J. K. Rowling’s *Harry Potter*, movies like *Avatar* and *Star Wars*, and television shows like *The Office* and *Firefly* define Americans’ perceptions of society. The authors expand the discussion to explore the ways in which political theories play out in popular culture. *Homer Simpson Ponders Politics* includes a foreword by fantasy author Margaret Weis (coauthor/creator of the *Dragonlance* novels and game world) and is divided according to eras and themes in political thought: The first section explores civic virtue, applying the work of Plato and Aristotle to modern media. Part 2 draws on the philosophy of Hobbes, Locke, Rousseau, and Smith as a framework for understanding the role of the state. Part 3 explores the work of theorists such as Kant and Marx, and the final section investigates the ways in which movies and newer forms of electronic media either support or challenge the underlying assumptions of the democratic order. The result is an engaging read for students as well as anyone interested in popular culture.

A behind-the-scenes look at Lexus' surprising twenty-year success story—in a revised new edition. In the 1980s, German brands BMW and Mercedes-Benz dominated the luxury car market and had little reason to fear competition from Japan. But in 1989, Toyota entered the market with the Lexus LS 400, a car that could compete with the Germans in every category but price—it was US\$30,000 cheaper. Within two years, Lexus had overtaken Mercedes-Benz in the United States and made a stunning success of Toyota's brave foray into the global luxury market. Lexus: The Relentless Pursuit reveals why Toyota decided to take on the German automakers and how the new brand won praise and success for its unparalleled quality, unforgettable advertising, and unprecedented customer service.

From the first boardroom planning session to Lexus's entry into the mega-luxury supercar market, this is the complete and compelling story of one of the world's most admired brands. Includes a new Foreword by legendary designer Erwin Lui, an Afterword with updates since the first edition, and a new Coda by leading Japanese automotive journalist Hisao Inoue. Covers the racetrack triumph—and tragedy—behind the new US\$375,000 Lexus LFA supercar. Offers important business lessons for brand managers and executives. For car enthusiasts, business leaders, and anyone interested in branding and marketing, Lexus: The Relentless Pursuit offers an amazing story of excellence and innovation in the automotive industry.

Popular Mechanics How to Fix Anything Hearst Books

There is a Haynes manual for most popular domestic and import cars, trucks, and motorcycles. By conducting complete tear-downs and rebuilds, the Haynes staff has discovered all the problems owners will find in rebuilding or repairing their vehicle.
