Crude Justice tells the story of a company executive, Ed Brant, relentlessly driven to prove himself in the murky world of the global oil business. He soon finds that the unspoken rules of corporate life require uncompromising compliance and unquestioning support for whatever will bolster and sustain financial success. Drawn into the world-altering goals of Global Oil a monster that is now his master Brant continually struggles to

assuage his innate sense of morality by rationalizing its ruthless strategies and finally its unconscionable and plundering, state-sponsored ambitions in the Middle East. his life.

The photos in this edition are black and white. Mitsubishi's 4G63t engine is among the most powerful engines ever in the sport-compact world. It's not uncommon to find one of these four-cylinder, iron-block, aluminum-headed, 2-liter turbocharged monsters making more than 1,000 horsepower with the right

modifications and tuning - well above the 200-300 hp produced in the factory-made engines. Bolted into such cars as the Mitsubishi Lancer Evolution, Eclipse, and Galant, and the Eagle Talon and Plymouth Laser, the 4G63t has more than a cult following among sport-compact enthusiasts, who know and respect this engine's immense performance potential at the track or on

the street. Up until now, in-depth performance information on the 4G63t has been hard to find. For this book, author Robert Bowen went straight to the source, Robert Garcia of Road/Race Engineering in Santa Fe Springs, California.
