

6 Montana Users Manual

Recognizing the pretension ways to acquire this book 6 Montana Users Manual is additionally useful. You have remained in right site to start getting this info. get the 6 Montana Users Manual join that we pay for here and check out the link.

You could buy guide 6 Montana Users Manual or get it as soon as feasible. You could quickly download this 6 Montana Users Manual after getting deal. So, in the manner of you require the ebook swiftly, you can straight get it. Its correspondingly entirely easy and therefore fats, isnt it? You have to favor to in this publicize

BTWE Bitterroot River - April 6, 2002 - Montana blountspublishing@yahoo.com

Gary David Blount's Rocky Mountain Fishing Journals: Perpetual Wild Trout Recapture Angling Journal "A Public Fisheries Project" The purpose of this: Perpetual Wild Trout Recapture Angling Journal "A Public Fisheries Project" is to be the initial public Social Media generated "Wild Trout Fisheries" data base site to monitor and publish the variable changes in our "Wild Trout" fisheries for Perpetuity". This is an invitation for you, your friends or your fishing club to participate in conducting recaptures: "Angling Day's" published in all of Gary David Blount Rocky Mountain Fishing Journals. These Rocky Mountain Fishing Journals encompass 35-years and contain over 1,500 - "Angling Day's" documenting the daily "Wild Trout" catch rates, water temperature, water level, water turbidity, air temperature, weather conditions, daily hatches, stomach analysis from "Wild Trout" landed, "GDB" Custom Flies fished, fly fishing presentations, trout species, trout lengths and geographic location on over 35-different bodies of water in Montana, Wyoming, Yellowstone National Park, Idaho and Washington. This Perpetual cursory research projects objective is to ascertain skilled or professional anglers at blountspublishing@yahoo.com and have them return to each body of water on the precise date, geographic location and time period fished contained in every one of my Rocky Mountain Fishing Journals. Each ascertain skilled or professional angler will document their "Angler Day" using the same format I used in each one of my Rocky Mountain Fishing Journals along with their "Angler Day" photographs in "JPEG" format. Each skilled or professional anglers "Angling Day" written documentation and photographs will be e-mailed to blountspublishing@yahoo.com and I will publish them in Gary David Blount "Yearly" Perpetual Rocky Mountain Fishing Journal. To preview excerpts from each one of Gary David Blount Rocky Mountain Fishing Journals go to books.google.com and to view on You Tube.com in the search bar type Gary David Blount Rocky Mountain Fishing Journals. Introduction The headwaters of the Bitterroot River originate from two-major Head Waters. The East Fork of the Bitterroot River originates from the Sapphire Mountains and Anaconda Pintler Wilderness Areas. The West Fork of the Bitterroot River originates from the Bitterroot Mountains and the Selway - Bitterroot Wilderness Areas. The West Fork of the Bitterroot River was dammed in the early 1900's creating Painted Rocks Reservoir. Below Painted Rocks Reservoir lies the tail-water fishery section of the West Fork of the Bitterroot River, which flows downstream to its confluence with the East Fork of the Bitterroot River north of the town of Conner, Montana. The East Fork of the Bitterroot River is still a free flowing stream. The Wild Fires of "2000" burned much of the timberland in the headwaters of both drainages. During spring run-off and summer thunderstorms the East Fork of the Bitterroot River turns turbid from the ash that is washed into the river from the tributaries flowing into the river. The West Fork of the Bitterroot River however remains clear, Painted Rocks Reservoir allows the headwater run-off to settle out within the reservoir before entering the West Fork of the Bitterroot River below the dam. The East Fork of the Bitterroot River confluence with the West Fork of the Bitterroot River forms the mainsteam of the Bitterroot River, which flows northerly to its confluence with the Clarkfork River outside the city of Missoula, Montana. The Bitterroot River trout fishery has experienced deprecation from mankind since the early 1900's when Marcus Daly "The Copper King" and others commissioned the building of an extensive network of irrigation canals throughout the Bitterroot Valley. The largest canal is the Big Ditch, which runs northerly over seventy-five miles in length traversing the eastside of the Bitterroot River Valley. They built large diversion dams across the Bitterroot River and diverted most of the tributaries in the Bitterroot Valley. These diversion dams dewater the Bitterroot River severely during the summer months. Most of the Bitterroot Tributaries become dry during critical spawning periods for Rainbow Trout, Westslope Cutthroat Trout, Brown Trout and Bull Trout. With these deprecation problems on the Bitterroot River there are still some sections of the Bitterroot River that offer good fishing for Rainbow Trout, Brown Trout and Westslope Cutthroat Trout and to a lesser degree Bull Trout. The Bitterroot River at time offers some excellent dry fly fishing. In March and April there are Stone Flies: Skwala Stone Flies (Skwala parallela) and Winter Stone Flies (Capina sp.), May Flies: Midges (Diptera / Chironomous), Early Blue-Winged Olive (Baetis tricaudatus), Dark Gray Quill (Ameletus connectus) and Caddis Flies: Grannom (Brachycentrus occidentalis) and Green Sedge (Ryacophila sp.). In May, June, July and August there are Stone Flies: Salmon Fly (Pteronarcys californica), Western Big Golden Stone Fly (Calineuria californica), Western Medium Golden Brown Stone Fly (Isoperla sp.), Little Yellow Stone Fly (Alloperla pallidula) and Little Olive Stone Fly (Alloperla delicata); May Flies: Midges (Diptera / Chironomous), Late Blue-Winged Olive (Baetis parvus), Little Western Blue-Winged Olive (Ephemerella

margarita), Western Green Drake (Drunella grandis), Pale Morning Dun (Ephemerella inermis and Ephemerella infrequens), Small Western Green Drake (Ephemerella flavilinea), Western Leadwing (Isonymia sicca) and Dark Gray Quill (Ameletus connectus); Caddis Flies: Grannom (Brachycentrus occidentalis), Green Sedge (Ryacophila sp.), Great Gray Spotted Sedge (Arctopsyche grandis), Little Tan Short Horn Sedge (Glossosoma sp.), Ring Horn Microcaddis (Leucotrichia pictipes), Spotted Sedge (Hydropsyche sp.), Little Sister Sedge (Cheumatopsyche campyla) and Little Plain Brown Sedge (Lepidostoma pluviale). In September and October there are May Flies: Late Blue-Winged Olive (Baetis parvus), Little Western Blue-Winged Olive (Ephemerella margarita), Tiny Western Olive (Pseudocloeon edmundsi), Pale Morning Dun (Ephemerella inermis and Ephemerella infrequens), Gray Drake (Siphonurus occidentalis), White Winged Black (Tricorythodes minutus), Caddis: Giant Orange Sedge (Dicosmoecus sp.) and Midges (Diptera / Chironomous).

To preview excerpts from each one of Gary David Blount Rocky Mountain Fishing Journals go to books.google.com, play google.com and to view on You Tube.com in the search bar type Gary David Blount Rocky Mountain Fishing Journals. Introduction Rock Creek is located 25-east of Missoula, Montana off Interstate 90. Rock Creek headwaters originate from three-Mountain Ranges. The North Fork of Rock Creek and the West Fork of Rock Creek originate from the Sapphire Mountain Range. The East Fork of Rock Creek and the Middle Fork of Rock Creek originate from the Anaconda Mountain Range and the Anaconda - Pintler Wilderness Area. The Upper Willow Creek originates from the John Long Mountains. There are numerous small streams flowing into Rock Creek on its journey north to its confluence with the Clarkfork of the Columbia River. In the 1980's Rock Creek contained roughly 2,000 Rainbow Trout per mile of stream in the lower 28-miles of Rock Creek; from Gillies Bridge downstream to the mouth of Rock

Creek. In the 1990's the Rainbow Trout population in Rock Creek plummeted to just 300 Rainbow Trout per mile of stream. This drastic decline in the Rainbow Trout population was caused by Whirling Disease and by the Montana Department of Fish, Wildlife and Parks decision to halt the stocking of Hatchery Rainbow Trout into the East Fork of Rock Creek Reservoir. To this day there has been no significant increase in the Rock Creek Rainbow Trout population. However, the Native Westslope Cutthroat Trout population in Rock Creek has rebounded somewhat to fill the void of lost Rainbow Trout population. Also the non-native Brown Trout population is on the increase. The Rock Creek fishery consists of native Westslope Cutthroat Trout up to 24-inches in length, native Bull Trout up to 36-inches in length, native Mountain Whitefish up to 24-inches in length, non-native Brown Trout up to 26-inches in length, non-native Rainbow Trout up to 24-inches in length and non-native Brook Trout up to 14-inches in length. Important Entomology And Forage Fish on Rock Creek are: Stone Flies: 1. Skwala (Skwala parallela) March - April (Size 8-10-12-14) 2. Salmon Fly (Pteronarcys californica) May - July (Size 2-4-6-8) 3. Western Big Golden Stone (Calineuria californica) May - August (Size 4-6-8-10-12) 4. Western Medium Golden Brown Stone (Isoperla sp.) June - September (Size 4-6-8-10) 5. Little Yellow Stone (Alloperla pallidula) June - October (Size 12-14-16-18) 6. Little Olive Stone (Alloperla delicata) May - August (Size 12-14-16-18) 7. Winter Stone (Capina sp.) January - March (Size 14-16-18) May Flies: 1. Western Black Quill (Rhithrogenahageni) March - April (Size 12-14) 2. Early Blue-Winged Olive (Baetis tricaudatus) March - April (Size 14-16-18) 3. Late Blue-Winged Olive (Baetis parvus) June - November (Size 16-22) 4. Little Western Blue-Winged Olive (Ephemerella margarita) July - September (Size 16-22) 5. Western Green Drake (Drunella grandis) June - July (Size 10-12) 6. Pale Morning Dun (Ephemerella inermis and Ephemerella infrequens) May -September (Size 14-16-18) 7. Small Western Green Drake (Ephemerella flavilinea) June - August (Size 14-16) 8. Western Leadwing (Isonymia sicca) June - July Size (Size 10-12) 9. Dark Gray Quill (Ameletus connectus) May - June (Size 12-14) 10. White Winged Black (Tricorythodes minutus) July - October (Size 18-20) 11. Midges (Diptera / Chironomous) Caddis Flies 1. Grannom (Brachycentrus occidentalis) April - May (Size 12-14-16) 2. Green Sedge (Ryacophila sp.)

Costs and Returns of Montana Dryland Wheat Production Kindred Spirits Publishing COWBOY MEETS HIS MATCH How does a Burbank-loving, California-dreaming, city girl find herself on a Montana ranch living with a too-handsome stranger? A Will, that ’ s how. And now Gabriella Thompson is entwined in a million-dollar standoff with Brad McKenna. If she meets the terms of the Will, the land is hers to do with as she pleases and what she wants to do is sell to the highest bidder. But Brad, her host for the required three months, is determined to change her mind because as badly as she needs the money, he needs to control the land. Three months is enough time to get to know someone really well...or even fall in love. Question is: does her cowboy rancher really love her? Or is it just about winning the prize? MONTANA CHRISTMAS Widowed, a single mom, Christmas, and she ’ s just lost her job. Can it get worse? Apparently it can when Santa asks if he can help her and Jenna Darlington knows it ’ s a cruel joke. Because Santa—Chance McKenna—is a member of the Rock Gods, a group of rock climbers who live off of adrenaline and stupidity. Been there, done that. Buried her

husband because of it. She has no respect for a man who doesn ’ t respect life—even if he is offering her a job. Chance knows exactly how Jenna feels about him and the rest of the Rock Gods. So why does he feel the way he does around her? They ’ re polar opposites when it comes to life views. But isn ’ t the saying that opposites attract? SECOND CHANCE HERO Skylar Mathews wants her son, Cody, to get better, and visiting Cody ’ s grandparents in Montana is supposed to accomplish that. But Marcus Whitefeather ’ s surprising presence on the ranch leaves her reeling. Marcus knew he ’ d regret sending Skylar and their unborn son away but at the time he ’ d had no choice. He ’ d lost everything, including his ability to walk, and no way was he ready to be a father, much less a husband. Ending their relationship was the hardest—and best—thing for all of them. But now they ’ re back and Marcus is a different man. When Cody doesn ’ t improve, Marcus suggests the unthinkable—that they reveal the truth not only to Cody, but their families. Make the wrong right and start again. Together. But after so many years of hiding their secret son how can Marcus prove he ’ s not only father material, but ready for more? Gary David Blount 's Rocky Mountain Fishing Journals: Perpetual Wild Trout Recapture Angling Journal " A Public Fisheries Project " The purpose of this: Perpetual Wild Trout Recapture Angling Journal " A Public Fisheries Project " is to be the initial public Social Media generated " Wild Trout Fisheries " data base site to monitor and publish the variable changes in our " Wild Trout " fisheries for Perpetuity ". This is an invitation for you, your friends or your fishing club to participate in conducting recaptures: " Angling Day 's " published in all of Gary David Blount Rocky Mountain Fishing Journals. These Rocky Mountain Fishing Journals encompass 35-years and contain over 1,500 - " Angling Day 's " documenting the daily " Wild Trout " catch rates, water temperature, water level, water turbidity, air temperature, weather conditions, daily hatches, stomach analysis from " Wild Trout " landed, " GDB " Custom Flies fished, fly fishing presentations, trout species, trout lengths and geographic location on over 35-different bodies of water in Montana, Wyoming, Yellowstone National Park, Idaho and Washington. This Perpetual cursory research projects objective is to ascertain skilled or professional anglers at blountspublishing@yahoo.com and have them return to each body of water on the precise date, geographic location and time period fished contained in every one of my Rocky Mountain Fishing Journals. Each ascertain skilled or professional angler will document their " Angler Day " using the same format I used in each one of my Rocky Mountain Fishing Journals along with their " Angler Day " photographs in " JPEG " format. Each skilled or professional anglers " Angling Day " written documentation and photographs will be e-mailed to blountspublishing@yahoo.com and I will publish them in Gary David Blount " Yearly " Perpetual Rocky Mountain Fishing Journal. To preview excerpts from each one of Gary David Blount Rocky Mountain Fishing Journals go to books.google.com and to view on You Tube.com in the search bar type Gary David Blount Rocky Mountain Fishing Journals. Introduction The headwaters of the Bitterroot River originate from two-major Head Waters. The East Fork of the Bitterroot River originates from the Sapphire Mountains and Anaconda Pintler Wilderness Areas. The West Fork of the Bitterroot River originates from the Bitterroot Mountains and the Selway – Bitterroot Wilderness Areas. The West Fork of the Bitterroot River was dammed in the early 1900 's creating Painted Rocks Reservoir. Below Painted Rocks Reservoir lies the tail-water fishery section of the West Fork of the Bitterroot River, which flows downstream to its confluence with the East Fork of the Bitterroot River north of the town of Conner, Montana. The East Fork of the Bitterroot River is still a free flowing stream. The Wild Fires of " 2000 " burned much of the timberland in the headwaters of both drainages. During spring run-off and summer thunderstorms the East Fork of the Bitterroot River turns turbid from the ash that is washed into the river from the tributaries flowing into the river. The West Fork of the Bitterroot River however remains clear, Painted Rocks Reservoir allows the headwater run-off to settle out within the reservoir before entering the West Fork of the Bitterroot River below the dam. The East Fork of the Bitterroot River confluence with the West Fork of the Bitterroot River forms the mainsteam of the Bitterroot River, which flows northerly to its confluence with the Clarkfork River outside the city of Missoula, Montana. The Bitterroot River trout fishery has experienced depravation from mankind since the early 1900 's when Marcus Daly " The Copper King " and others commissioned the building of an extensive network of irrigation canals throughout the Bitterroot Valley. The largest canal is the Big Ditch, which runs northerly over seventy-five miles in length traversing the eastside of the Bitterroot River Valley. They built large diversion dams across the Bitterroot River and diverted most of the tributaries in the Bitterroot Valley. These diversion dams dewater the Bitterroot River severely during the summer months. Most of the Bitterroot

Tributaries become dry during critical spawning periods for Rainbow Trout, Westslope Cutthroat Trout, Brown Trout and Bull Trout. With these depravation problems on the Bitterroot River there are still some sections of the Bitterroot River that offer good fishing for Rainbow Trout, Brown Trout and Westslope Cutthroat Trout and to a lesser degree Bull Trout. The Bitterroot River at time offers some excellent dry fly fishing. In March and April there are Stone Flies: Skwala Stone Flies (Skwala parallela) and Winter Stone Flies (Capina sp.), May Flies: Midges (Diptera / Chironomous), Early Blue-Winged Olive (Baetis tricaudatus), Dark Gray Quill (Ameletus connectus) and Caddies Flies: Grannom (Brachycentrus occidentalis) and Green Sedge (Ryacophila sp.). In May, June, July and August there are Stone Flies: Salmon Fly (Pteronarcys californica), Western Big Golden Stone Fly (Calineuria californica), Western Medium Golden Brown Stone Fly (Isoperla sp.), Little Yellow Stone Fly (Alloperla pallidula) and Little Olive Stone Fly (Alloperla delicata); May Flies: Midges (Diptera / Chironomous), Late Blue-Winged Olive (Baetis parvus), Little Western Blue-Winged Olive (Ephemerella margarita), Western Green Drake (Drunella grandis), Pale Morning Dun (Ephemerella inermis and Ephemerella infrequens), Small Western Green Drake (Ephemerella flavilinea), Western Leadwing (Isonychia sicca) and Dark Gray Quill (Ameletus connectus); Caddis Flies: Grannom (Brachycentrus occidentalis), Green Sedge (Ryacophila sp.), Great Gray Spotted Sedge (Arctopsyche grandis), Little Tan Short Horn Sedge (Glossosoma sp.), Ring Horn Microcaddis (Leucotrichia pictipes), Spotted Sedge (Hydropsyche sp.), Little Sister Sedge (Cheumatopsyche campyla) and Little Plain Brown Sedge (Lepidostoma pluviale). In September and October there are May Flies: Late Blue-Winged Olive (Baetis parvus), Little Western Blue-Winged Olive (Ephemerella margarita), Tiny Western Olive (Pseudocloeon edmundsi), Pale Morning Dun (Ephemerella inermis and Ephemerella infrequens), Gray Drake (Siphonurus occidentalis), White Winged Black (Tricorythodes minutus), Caddis: Giant Orange Sedge (Dicosmoecus sp.) and Midges (Diptera / Chironomous). Montana Labor Market blountspublishing@yahoo.com Pete Brooks can't believe he's waited an entire year for Jess Tagg to return to Montana, only to have her break his heart by getting engaged to her ex-fiancé. Worse, a series of mistakes on the job have cost lives, and Pete isn't sure he wants to continue to work in Search and Rescue. Maybe if he can just get over Jess, he can figure out how to move forward. EMT Jess Tagg has returned to Montana to finally give her heart to Pete, but it seems he's no longer interested. When a terrible fight between them sparks an impulsive decision, she finds herself crashed on the side of a highway along with Esme Shaw. And just when she thinks things couldn't get any worse, she and Esme are taken captive and into the untamed Montana wilderness--with murderous intent. Now Pete and the other PEAK Rescue Team members are in a race against time, the elements, and the actions of a vengeful man. Pete will have to use everything he's learned to find Jess and Esme--and pray that his past mistakes don't cost him the life of the woman he can't stop loving.

The Codes and Statutes of Montana blountspublishing@yahoo.com

Three wonderful romances that will make you believe in happily-ever-after. Join Erin, Gracie, and Emily as they discover love in rural Montana. Forever Wishes: Wanted...A man with a big heart, a wicked sense of humor, and a baby on his mind. When Jake moves to Montana, he doesn't expect to fall for anyone. But Erin's about to show him that love and a determined woman can change his life forever. Forever Santa: Even Santa couldn't have imagined what's in store for Gracie this Christmas...Discover the true meaning of Christmas in this powerful story of unconditional love, its challenges, its risks, and most of all, its rewards. Forever Cowboy: Emily needs help to turn a run-down building into a stylish boutique. But when an injured bull riding champion comes head-to-head with a determined redhead, sparks fly. Their business partnership could be a match made in heaven, but only if a cowboy with a broken heart lets himself believe in forever. All of Leeanna's series are linked, but can be read as standalone novels. Mystery, adventure, and a whole lot of happily-ever-afters are waiting for you in Bozeman. Happy reading! Other Contemporary Romances by Leeanna Morgan Montana Brides: Book 1: Forever Dreams (Gracie and Trent) Book 2: Forever in Love (Amy and Nathan) Book 3: Forever After (Nicky and Sam) Book 4: Forever Wishes (Erin and Jake) Book 5: Forever Santa: a Montana Brides Christmas Novella Book 6: Forever Cowboy (Emily and Alex) Book 7: Forever Together (Kate and Dan) Book 8: Forever and a Day (Sarah and Jordan) The Bridesmaids Club: Book 1: All of Me (Tess and Logan) Book 2: Loving You (Annie and Dylan) Book 3: Head Over Heels (Sally and Todd) Book 4: Sweet on You (Molly and Jacob) Emerald Lake Billionaires: Book 1: Sealed with a Kiss (Rachel and John) Book 2: Playing for Keeps (Sophie and Ryan) Book 3: Crazy Love (Holly and Daniel) The Protectors: Book 1: Safe Haven (Hayley and Tank) Book 2: Just Breathe (Kelly and Tanner) Book 3: Always (Mallory and Grant) Book 4: The Promise (Ashley and Matthew) Book 5: Coming Home (Mia and Stan) Book 6: The Gift (Hannah and Brett) Book 7: The Wish (Claire and Jason) Sapphire Bay: Book 1: Falling For You (Natalie and Gabe) Book 2: Once In A Lifetime (Sam and Caleb) Book 3: A Christmas Wish (Megan and William) Book 4: Before Today (Brooke and Levi) Book 5: The Sweetest Thing (Cassie and Noah) Praise for the Montana Brides series: " A wonderful series that you can't stop reading. It will make you laugh and cry but mostly sigh. I enjoyed the whole series but could have read each one separately. Leeanna Morgan made the love flow. A great read for everyone who loves romance! " " Every one of the books in The Montana Brides Series is filled with laughter, joy and tears. The family and friendship ties are so special. The romance and loving relationships are the best. I read these 7 books in 5 days. I couldn't put these books down. You have to read the following series, The Bridesmaid Club Series. AWESOME! I'm almost done with the books. " " I enjoyed this story! It was hard to put the book down and I didn't unless I had to. The storyline and characters were perfect and the scenic descriptions were wonderful. Such a lovely romantic story. " Keywords: Heartwarming, small town romance, western, ranch, cowboy, friendship, family life, series, Montana, relationships, love, wedding, bride, bridesmaid, family saga, second chance, baby, auction, rich, wealthy, vacation.

THIS BOX SET CONTAINS BOOKS 4-6 OF THE MONTANA SECRETS SERIES: MILLION DOLLAR STANDOFF A million-dollar standoff...who will win? How does a Burbank-loving, California-dreaming, city girl find herself on a Montana ranch living with a too-handsome stranger? A Will, that's how. And now Gabriella Thompson is entwined in a million-dollar standoff with Brad McKenna. If she meets the terms of the Will, the land is hers to do with as she pleases and what she wants to do is sell to the highest bidder. But Brad, her host for the required three months, is determined to change her mind because as badly as she needs the money, he needs to control the land. Three months is enough time to get to know someone really well...or even fall in love. Question is: does her cowboy rancher really love her? Or is it just about winning the prize? HIS CHRISTMAS WISH Widowed, a single mom, Christmas and she's just lost her job. Can it get worse? Apparently it can when Santa asks if he can help her and Jenna Darlington knows it's a cruel joke. Because Santa--Chance McKenna--is a member of the Rock Gods, a group of rock climbers who live off of adrenaline and stupidity. Been there, done that. Buried her husband because of it. She has no respect for a man who doesn't respect life--even if he is offering her a job. Chance knows exactly how Jenna feels about him and the rest of the Rock Gods. So why does he feel the way he does around her? They're polar opposites when it comes to life views. But isn't the saying that opposites attract? THEIR SECRET SON Sometimes exposing the secrets of the past is the only way to heal... Widow Skylar Mathews is desperate to help her troubled, young son, Cody and hopes returning home to Montana and family will accomplish that. But

Marcus Whitefeather's surprising presence on the ranch leaves her reeling. Marcus knew he'd regret sending Skylar and their unborn son away but at the time he'd had no choice. He'd lost everything, including his ability to walk, and no way was he ready to be a father, much less a husband. Ending their relationship was the hardest--and best--thing for all of them. But now they're back and Marcus is a different man. When Cody doesn't improve, Marcus suggests the unthinkable--that they reveal the truth not only to Cody but their families. Make the wrong right and start again. Together. But after so many years of hiding their secret son how can Marcus prove he's not only father material--but ready for more?

The West Fork of the Bitterroot River originates from the Bitterroot Mountains and the Selway – Bitterroot Wilderness Areas. The West Fork of the Bitterroot River was dammed in the early 1900 ' s creating Painted Rocks Reservoir. Below Painted Rocks Reservoir lies the tail-water fishery section of the West Fork of the Bitterroot River, which flows downstream to its confluence with the East Fork of the Bitterroot River north of the town of Conner, Montana. The East Fork of the Bitterroot River is still a free flowing stream. The Wild Fires of " 2000 " burned much of the timberland in the headwaters of both drainages. During spring run-off and summer thunderstorms the East Fork of the Bitterroot River turns turbid from the ash that is washed into the river from the tributaries flowing into the river. The West Fork of the Bitterroot River however remains clear, Painted Rocks Reservoir allows the headwater run-off to settle out within the reservoir before entering the West Fork of the Bitterroot River below the dam. The East Fork of the Bitterroot River confluence with the West Fork of the Bitterroot River forms the mainsteam of the Bitterroot River, which flows northerly to its confluence with the Clarkfork River outside the city of Missoula, Montana. The Bitterroot River trout fishery has experienced depravation from mankind since the early 1900 ' s when Marcus Daly " The Copper King " and others commissioned the building of an extensive network of irrigation canals throughout the Bitterroot Valley. The largest canal is the Big Ditch, which runs northerly over seventy-five miles in length traversing the eastside of the Bitterroot River Valley. They built large diversion dams across the Bitterroot River and diverted most of the tributaries in the Bitterroot Valley. These diversion dams dewater the Bitterroot River severely during the summer months. Most of the Bitterroot Tributaries become dry during critical spawning periods for Rainbow Trout, Westslope Cutthroat Trout, Brown Trout and Bull Trout. With these depravation problems on the Bitterroot River there are still some sections of the Bitterroot River that offer good fishing for Rainbow Trout, Brown Trout and Westslope Cutthroat Trout and to a lesser degree Bull Trout. The Bitterroot River at time offers some excellent dry fly fishing. In March and April there are Stone Flies: Skwala Stone Flies (Skwala parallela) and Winter Stone Flies (Capina sp.), May Flies: Midges (Diptera / Chironomous), Early Blue-Winged Olive (Baetis tricaudatus), Dark Gray Quill (Ameletus connectus) and Caddies Flies: Grannom (Brachycentrus occidentalis) and Green Sedge (Ryacophila sp.). In May, June, July and August there are Stone Flies: Salmon Fly (Pteronarcys californica), Western Big Golden Stone Fly (Calineuria californica), Western Medium Golden Brown Stone Fly (Isoperla sp.), Little Yellow Stone Fly (Alloperla pallidula) and Little Olive Stone Fly (Alloperla delicata); May Flies: Midges (Diptera / Chironomous), Late Blue-Winged Olive (Baetis parvus), Little Western Blue-Winged Olive (Ephemerella margarita), Western Green Drake (Drunella grandis), Pale Morning Dun (Ephemerella inermis and Ephemerella infrequens), Small Western Green Drake (Ephemerella flavilinea), Western Leadwing (Isonychia sicca) and Dark Gray Quill (Ameletus connectus); Caddis Flies: Grannom (Brachycentrus occidentalis), Green Sedge (Ryacophila sp.), Great

Gray Spotted Sedge (*Arctopsyche grandis*), Little Tan Short Horn Sedge (*Glossosoma* sp.), Ring Horn Microcaddis (*Leucotrichia pictipes*), Spotted Sedge (*Hydropsyche* sp.), Little Sister Sedge (*Cheumatopsyche campyla*) and Little Plain Brown Sedge (*Lepidostoma pluviale*). In September and October there are May Flies: Late Blue-Winged Olive (*Baetis parvus*), Little Western Blue-Winged Olive (*Ephemerella margarita*), Tiny Western Olive (*Pseudocloeon edmundsi*), Pale Morning Dun (*Ephemerella inermis* and *Ephemerella infrequens*), Gray Drake (*Siphonurus occidentalis*), White Winged Black (*Tricorythodes minutus*), Caddis: Giant Orange Sedge (*Dicosmoecus* sp.) and Midges (*Diptera / Chironomus*).

Montana's Forest Products Industry

Gary David Blount 's Rocky Mountain Fishing Journals: Perpetual Wild Trout Recapture Angling Journal " A Public Fisheries Project " The purpose of this: Perpetual Wild Trout Recapture Angling Journal " A Public Fisheries Project " is to be the initial public Social Media generated " Wild Trout Fisheries " data base site to monitor and publish the variable changes in our " Wild Trout " fisheries for Perpetuity " . This is an invitation for you, your friends or your fishing club to participate in conducting recaptures: " Angling Day ' s " published in all of Gary David Blount Rocky Mountain Fishing Journals. These Rocky Mountain Fishing Journals encompass 35-years and contain over 1,500 - " Angling Day ' s " documenting the daily " Wild Trout " catch rates, water temperature, water level, water turbidity, air temperature, weather conditions, daily hatches, stomach analysis from " Wild Trout " landed, " GDB " Custom Flies fished, fly fishing presentations, trout species, trout lengths and geographic location on over 35-different bodies of water in Montana, Wyoming, Yellowstone National Park, Idaho and Washington. This Perpetual cursory research projects objective is to ascertain skilled or professional anglers at blountspublishing@yahoo.com and have them return to each body of water on the precise date, geographic location and time period fished contained in every one of my Rocky Mountain Fishing Journals. Each ascertain skilled or professional angler will document their " Angler Day " using the same format I used in each one of my Rocky Mountain Fishing Journals along with their " Angler Day " photographs in " JPEG " format. Each skilled or professional anglers " Angling Day " written documentation and photographs will be e-mailed to blountspublishing@yahoo.com and I will publish them in Gary David Blount " Yearly " Perpetual Rocky Mountain Fishing Journal. To preview excerpts from each one of Gary David Blount Rocky Mountain Fishing Journals go to books.google.com and to view on You Tube.com in the search bar type Gary David Blount Rocky Mountain Fishing Journals. Introduction The headwaters of the Bitterroot River originate from two-major Head Waters. The East Fork of the Bitterroot River originates from the Sapphire Mountains and Anaconda Pintler Wilderness Areas. The West Fork of the Bitterroot River originates from the Bitterroot Mountains and the Selway – Bitterroot Wilderness Areas. The West Fork of the Bitterroot River was dammed in the early 1900 ' s creating Painted Rocks Reservoir. Below Painted Rocks Reservoir lies the tail-water fishery section of the West Fork of the Bitterroot River, which flows downstream to its confluence with the East Fork of the Bitterroot River north of the town of Conner, Montana. The East Fork of the Bitterroot River is still a free flowing stream. The Wild Fires of " 2000 " burned much of the timberland in the headwaters of both drainages. During spring run-off and summer thunderstorms the East Fork of the Bitterroot River turns turbid from the ash that is washed into the river from the tributaries flowing into the river. The West Fork of the Bitterroot River however remains clear, Painted Rocks Reservoir allows the headwater run-off to settle out within the reservoir before entering the West Fork of the Bitterroot River below the dam. The East Fork of the Bitterroot River confluence with the West Fork of the Bitterroot River forms the mainsteam of the Bitterroot River, which flows northerly to its confluence with the Clarkfork River outside the city of Missoula, Montana. The Bitterroot River trout fishery has experienced deprecation from mankind since the early 1900 ' s when Marcus Daly " The Copper King " and others commissioned the building of an extensive network of irrigation canals throughout the Bitterroot Valley.
