It contains several letters addressed to his contemporaries (Michel Foucault, Pierre Klossowski, Fran ç ois Ch â telet, and Cl é ment Rosset, among others). Of particular importance are the letters addressed to F é lix Guattari, which offer an irreplaceable account of their work as a duo from Anti-Oedipus to What is Philosophy? Later letters provide a new perspective on Deleuze's work as he responds to students' questions. his volume also offers a set of unpublished or hard-to-find texts, including some essays from Deleuze's youth, a few unusual drawings, and a long interview from 1973 on Anti-Oedipus with Guattari.

Essay on Transcendental Philosophy presents the first English translation of Salomon Maimon's principal work, originally published in Berlin in 1790. In this book, Maimon seeks to further the revolution in philosophy wrought by Kant's Critique of Pure Reason by establishing a new foundation for transcendental philosophy in the idea of difference. Kant judged Maimon to be his most profound critic, and the Essay went on to have a decisive influence on the course of post-Kantian German Idealism. A more recent admirer was Gilles Deleuze who drew on Maimon's Essay in constructing his own philosophy of difference. This long-overdue translation makes Maimon's brilliant analysis and criticism of Kant's philosophy accessible to an English readership for the first time. The text includes a comprehensive introduction, a glossary, translators' notes, a bibliography of writings on Maimon and an index. It also includes translations of correspondence between Maimon and Kant and a letter Maimon wrote to a Berlin journal clarifying the philosophical position of the essay, all of which bring the book's context alive for the modern reader.

Jon Roffe shows how Empiricism and Subjectivity is the precursor for some of Deleuze's most well-known philosophical innovations. For those already familiar with Deleuze, he emphasises its novelty within his corpus. And, for all readers, he shows how it outlines Deleuze's powerful and striking theory of subjectivity, and of philosophy itself. Empiricism and Subjectivity is Gilles Deleuze's first book, and yet it is infrequently read and poorly understood. In fact, it constitutes a unique project in its own right, deserving of the same close study that is now widely given to other, more well-known works.

With an " astute sense of musical form and a wonderful sense of passion " (New York Times Book Review), master storyteller Margriet de Moor, one of Europe ' s foremost novelists, once again brings us a richly imagined and highly original tale of passion and jealousy. The unnamed narrator, a young musicologist, meets and befriends the famous blind music critic Marius van Vlooten. Their first encounter is on an airplane en route to a master class in Bordeaux, where the narrator introduces Marius to Suzanna, the pretty first violinist of a string quartet there to perform Jan á cek ' s Kreutzer Sonata. From this chance meeting, a passionate love affair soon develops between Marius and Suzanna. They become engaged and marry. A series of subsequent conversations between Marius and the narrator reveals the truth behind Marius ' s blindness: when he was a young student, he had fallen madly in love with a girl who spurned him. Despairing, he tried to commit suicide, but succeeded only in blinding himself. Now, ten years later, Marius is prey to another terrible dilemma: he loves Suzanna desperately, but, strongly suspecting she has a lover, becomes insanely jealous. His suspicions and his past draw him—and the reader—into a dramatic and tense Hitchcockian vertigo, where the tragedy plays itself out. This subtly constructed novel evokes powerful emotions through what the characters see and don ' t see, but mostly through what they hear—the language of music. Skyhorse Publishing, as well as our Arcade, Yucca, and Good Books imprints, are proud to publish a broad range of books for readers interested in fiction—novels, novellas, political and medical thrillers, comedy, satire, historical fiction, romance, erotic and love stories, mystery, classic literature, folklore and mythology, literary classics including Shakespeare, Dumas, Wilde, Cather, and much more. While not every title we publish becomes a New York Times bestseller or a national bestseller, we are committed to books on subjects that are sometimes overlooked and to authors whose work might not otherwise find a home.
