Unexpected heroes arrive to help the Flash in his final confrontation with Eclipso. Can Wally West move fast enough to save the universe? Find out in part three of "the Eclipso War!"

Cambridge University Press

For more than half a century, Chris-Craft reigned supreme in the world of motorboating. This market dominance was due in no small part to the design and construction techniques employed in the company ' s studios and on its factory floors. Building Chris-Craft examines the company ' s design and production heritage, looking at Chris-Craft ' s considerable accomplishments in the context of key competitors and industrial trends in general. High-quality archival images take readers inside the factories, design studios, and lofts of Chris-Craft factories in Algonac, Holland; Cadillac, Michigan; Salisbury, Maryland; Chattanooga, Tennessee; and Caruthersville, Missouri.

Lakeland Boating Dc Comics

In Island, his last novel, Huxley transports us to a Pacific island where, for 120 years, an ideal society has flourished. Inevitably, this island of bliss attracts the envy and enmity of the surrounding world. A conspiracy is underway to take over Pala and events begin to move when an agent of the conspirators, a newspaperman named Faranby, is shipwrecked there. What Faranby doesn't expect is how his time with the people of Pala will revolutionize all his values and -- to his amazement -- give him hope.

The descriptions and specifications contained in this manual were in effect at the time this manual was approved for printing.

Boating JHU Press

2008 Outstanding Academic Title, Choice Magazine From dirt bikes and jet skis to weed wackers and snowblowers, machines powered by small gas engines have become a permanent—and loud—fixture in American culture. But fifty years of high-speed fun and pristine lawns have not come without cost. In the first comprehensive history of the small-bore engine and the technology it powers, Paul R. Josephson explores the political, environmental, and public health issues surrounding one of America's most dangerous pastimes. Each chapter tells the story of an ecosystem within the United States and the devices that wreak havoc on it—personal watercraft (PWCs) on inland lakes and rivers; all-terrain vehicles (ATVs) in deserts and forests; lawn mowers and leaf blowers in suburbia. In addition to environmental impacts, Josephson discusses the development and promotion of these technologies, the legal and regulatory efforts made to improve their safety and environmental soundness, and the role of owners' clubs in encouraging responsible operation. Synthesizing information from medical journals, recent environmental research, nongovernmental organizations, and manufacturers, Josephson's compelling history leads to one irrefutable conclusion: these machines cannot be operated without loss of life and loss of habitat.

Motorized Obsessions

Postcards, photographs, matchbook covers, buttons, advertisements, real estate brochures -- and much more.

The author has been collecting anything and everything pertaining to Rockaway Beach, New York, for the past seventy years -- and that's what this volume is all about. Here is a plethora of souvenirs and memorabilia amassed over one individual's lifetime. This is the largest and most complete historical journal ever published by this author. "Rockaway Beach, New York in Souvenirs and Memorabilia" includes representations of artifacts dating back before the turn of the 20th Century -- but also features additional materials relating to the last 120 years. Recent events such as the creation of high-rise apartments replacing a defunct shopping center in the hub of Far Rockaway and the loss of the Park Theatre building in Rockaway Park -- are captured here in photo detail. As inclusive as possible, this is a fun book -- actually a historical journal which is of interest and value -- a tome to be enjoyed over and over again by anyone who ever had any relationship to Rockaway Beach.

Come Home to Me

When dozens of fires erupt in downtown Central City, Flash rushes from house to house to save the residents.
