Lasting six weeks, and covering 16,000 miles from London to Mexico City via some of the most varying, tortuous and difficult terrain on three continents, the 1970 World Cup Rally was a unique high-speed event, attracting

many serious works teams such as Ford and British Leyland. Despite the tremendous amounts of money spent choosing and developing new cars, completing months-long route surveys, and analysing every detail of diets, oxygen provision, and the number of crew members, out of an entry of more than 100 cars, only 23 cars made it to the finish. It was then, and remains now, the toughest rally of all time.

British commercial manufacturers played a prime role in boosting Britain's economy during the 1960s, especially as many vehicles were exported worldwide. British lorries were, therefore, considered as being the workhorses of the world,

performing a wide range of duties from heavy haulage to general goods delivery. This highly visual study of British lorries of the 1960s captures in 120 illustrations this often understated but very necessary work, which was undertaken day and night, 365 days a year. The comprehensive text reveals much about the marques that were everyday names, along with information about Britain's road haulage and commercial vehicle industries. This book will rekindle many memories and serve as a reminder of the important role British commercial

vehicles played during the 1960s.
