By 250 AD, Christianity had spread
throughout India and China.
Known as the Shining Religion or
the Luminous Teaching, it drew
adherents from Buddhism and
Hinduism who were seeking a faith
that taught the possibility of
achieving a society founded on
love and compassion for their
fellow man. The new doctrine
reached the island nation of Japan
where it was so well received that
Christianity threatened to supplant
Buddhism as the dominant
religion. By the close of the 16th
century Japanese Christians
numbered in the millions. Fifty
years later Christianity was
officially proscribed and Christians

faced execution for openly practicing their faith. Jesus and the Samurai tells their fascinating story with facts drawn from ancient and modern sources.

"I was approaching way too fast,

with no time to stop. I didn't even try; I simply let Sylvie charge into the gravel full tilt, coming to a remarkably fast stop. Half a dozen marshals stared at me wide-eyed. I watched their arms raise as I sunk into the welcoming stones. With the wheels buried axle-deep, I lost my balance and keeled over, Sylvie resting on top of me. I flicked the kill switch and everything went quiet." "Sylvie And Me" is the dramatic, humorous and candid memoir of a fool who always wanted to race. At the age of fifty-six and a half, Steve Male decided it was a good time to start motorcycle racing. With no real experience, he bought an old Suzuki SV650, got his licence and joined the local racing club with some very modest goals: 1. Enter one race meeting. 2. Take part in at least one race. 3. Complete at least one race. 4. Don't crash. 5. Don't finish last. 6. Don't die trying. Armed with nothing but over-optimism and an ageing bike, he entered the 2019 Bemsee Rookie Minitwin Championship, hoping to scratch a 40-year-old itch. Not only did he do that but he managed to squeeze a lifetime's worth of experiences into six short weekends. Follow his progress from wannabe to race licence holder. Share the highs, the lows and the dangers he witnessed, proving that even someone as poorly prepared as he was could still come out the other side and say, "I am a racer". Steve Male is a middle-aged father of two and obsessive motorcycle fan. Inheriting his father's enthusiasm, he has owned bikes since he was 14. He rekindled an interest in bike racing in his forties, supporting a number of young racers via his GP Future website. He lives with the ever-

patient Cheryl and their two dogs in East Sussex but his heart belongs to the race track. Or so he thinks.

How to Build a Pro Streetbike Haynes Manuals N. America, Incorporated

Suspension is probably the most misunderstood aspect of motorcycle performance. This book, by America's premier suspension specialist, makes the art and science of suspension tuning accessible to professional and backyard motorcycle mechanics alike. Based on Paul Thede's wildly popular Race Tech Suspension Seminars, this step-by-step guide shows anyone how to make their bike, or their kid's, handle like a pro's. Thede gives a clear account of the three forces of

suspension that you must understand to make accurate assessments of your suspension ' s condition. He outlines testing procedures that will help you gauge how well you ' re improving your suspension, along with your riding. And, if you ' re inclined to perfect your bike ' s handling, he even explains the black art of chassis geometry. Finally, step-by-step photos of suspension disassembly and assembly help you rebuild your forks and shocks for optimum performance. The book even provides detailed troubleshooting guides for dirt, street, and supermoto--promising a solution to virtually any handling problem.
