Kit Tomlin is a bull rider with her eye on a championship title and a jackpot to keep her family's ranch a float but her true passion lies with the mustangs she trains. Taught at the school of hard knocks Kit knows what it is to step up and get a job done; until a cowboy decides to get in the way. But she's worked hard to earn the right to ride, her new ranch hand doesn't get to step in and mess that up; no matter how handsome he is. Ryan Colby is looking at retiring from the circuit, and curious about the 'girl' making a stir. His

plans for settling down as a ranch hand are interrupted by his sister's bad decisions leaving him with two little girls he doesn't even know. But lucky for him his boss knows a thing or two about raising a family; though Ryan doesn't intend to watch her work to the bone doing it. With stunning green eyes and a spirit as free as the mustang she ride Kit isn't looking for any man to help her. Romance is never simple, toss in a cowboy, a bull rider and a few unexpected surprises to find out what people are made of; and how they will step up for each other. A western romance that anyone can enjoy.

The ultimate reference for Triumph lovers and fans of British motorcycles, *The Complete Book of Classic and Modern Triumph Motorcycles 1937-Today* collects all of the motorcycles from this iconic brand in a single illustrated volume. In this revised and updated edition, you'll find the all-new Bonneville lineup introduced for the 2016 model year as well as other Triumphs through 2019. Originally formed as a bicycle company in 1885, Triumph produced its first motorcycle in 1902, which was simply a bicycle fitted with a Belgian Minerva engine. From there, the company, in various iterations, went on to build some of the most iconic motorcycles of all time. Written by respected Triumph expert Ian Falloon, this luxurious reference covers all of the major and minor models, with an emphasis on the most exemplary, era-defining motorcycles such as the Thunderbird, Tiger, Trophy, Bonneville, and new machines such as the Speed Triple, Thruxton, and Daytona 675. Detailed technical specifications are offered alongside compelling photography, much of it sourced from Triumph's archives. *The Complete Book of Classic and Modern Triumph Motorcycles 1937-Today* also features important non-production models and factory racing and speed-record-setting motorcycles that have become integral parts of Triumph's stellar reputation. This is a book no Triumph fan should be without!

Riding motorcycles is fun, but author Ken Condon maintains that there is a state of consciousness to be achieved beyond the simple pleasure of riding down the road. Riding in the Zone helps riders find that state of being. It's the experience of being physically and mentally present in the

moment, where every sense is sharply attuned to the ride. Your mind becomes silent to the chatter of daily life, and everyday problems seem to dissolve. You feel a deeper appreciation for life. Your body responds to this state of being with precise, fluid movements, you feel in balance, your muscles are relaxed, and it seems as though every input you make is an expression of mastery. This is "the Zone." Condon identifies all of the factors that affect entering the Zone and addresses each one individually, from the development of awareness and mental skills to mastering physical control of the motorcycle. At the end of each chapter are drills designed to transform the book's ideas into solid, practical riding skills. Riding in the Zone takes riders to the next level in their skill set.

"This book, a polished, winding meditation on the theory and fractiousness of motorcycles, celebrates both their eccentric history and the wary pleasures of touring."—The New Yorker In a book that is "a must for anyone who has loved a motorcycle" (Oliver Sacks), Melissa Pierson captures in vivid, writerly prose the mysterious attractions of motorcycling. She sifts through myth and hyperbole: misrepresentations about danger, about the type of people who ride and why they do so. The Perfect Vehicle is not a mere recitation of facts, nor is it a polemic or apologia. Its vivid historical accounts—the beginnings of the machine, the often hidden tradition of women who ride, the tale of the defiant ones who taunt death on the racetrack—are intertwined with Pierson's own story, which, in itself, shows that although you may think you know what kind of person rides a motorcycle, you probably don't.

Insecure artist Deanna Berger's worst nightmare has come true, and she fears she'll never recover, but with help from an unexpected source, she discovers buried inner strength and self-healing she always possessed. Deanna struggles to raise her young son alone, and live up to others' expectations of her life while battling debilitating grief. Her lifelong anxiety problem, curbed during her marriage by the closeness with her husband, peaks. Concerned friends argue for her to reach out to form a new relationship, even a temporary one, lacking the depth she truly craves. She finally does accept advances from the surprising Jacob, and forms a fast, unanticipated connection with him, allowing her more than the immediate

anxiety relief she originally sought, and leading her on a journey of self discovery and healing.

Maria Costello is one of the most instantly recognisable faces in British motorsport. Blonde, petite, pretty and bubbly, she is the opposite of most people's image of a motorbike racer. Yet Maria has competed on equal terms in this most demanding man's world for over a decade, smashing the Isle of Man TT lap record. This is her story.

THE SUNDAY TIMES NUMBER-ONE BESTSELLER. Michael Dunlop is quite simply the greatest road racer on the planet. Brother of William, also an accomplished rider, son of the late Robert and nephew of the late great Joey Dunlop,

Michael can fairly claim that racing is in his blood. Now for the first time he talks in depth about his family story, how he got involved in the family business and how he manages to keep getting back on his bike despite all he knows of the deadly risks he encounters every time he crosses the start line. The death of his uncle during a competition in Estonia in 2000 was followed just eight years later by the death of his father at the North West 200. But despite these tragic losses Michael was undeterred and, two days after his father's death, he returned to the North West, and won. The next year Michael won his first TT, joining both his father and uncle in the record books. Now with thirteen TT wins to his name Michael is a phenomenal competitor, and in this sensational autobiography he reveals the highs and lows of racing, what it was like growing up part of a motorcycle dynasty and how that made him the incredible racing driver he is today.

Feel is the story of how a small-time boy from humble beginnings in Louisiana rose to the pantheon of greats, to win the 500cc and 250cc GP Championship in the same year – an historic achievement over three decades ago which has never been repeated. Growing up at the time of the assassination of Malcolm X and Martin Luther King, Freddie judged by feel, not by colour. Blind to prejudice and discrimination, he formed dynamic connections with people and events, but only years later during his racing afterlife could Freddie come to understand the true power of the things he learned. Spencer is an articulate and compassionate guide as he describes the thrill and horror of racing in an era when death was a perennial threat. He

recalls in pin-sharp detail the frenetic high-octane racing duels with the 'King' Kenny Roberts, but also describes a parallel internal journey as he struggled to make sense of it all. Driven by a search for the personal fulfilment that comes through finding your purpose, Freddie's story is a universal one. In its message of hope, *Feel* transcends its genre to offer a story for everyone. Part thriller, part philosophical self-exploration, it is a remarkably insightful account of what it is like to have it all, but wonder why. "For the first time I will talk about the traumas of my childhood, the contrast between the leaf fire burns, the mistrust and discomfort and the peace and purpose I felt when riding my bike. I didn't tell my parents about something that happened to me. Why? I felt ashamed, but when I rode I felt connected to everything and the pain in my hand and heart would go away. It gave me the feeling of hope".

Valentino Rossi's retirement brings down the curtain on an incredible career in the MotoGP motorcycle world championships. With his nine titles, including seven in the premier class, he is widely regarded as the greatest motorcycle racer ever, and his 26 seasons of Grand Prix racing make him unique across both motorcycling and Formula 1. Rossi has been captivating fans

since he won his first Grand Prix at the age of 17 and even in his final season, at the age of 42, he has been riding faster than ever. In *Valentino Rossi: All His Races*, by top journalist Mat Oxley, each and every one of these races comes under the microscope, complete with perspectives about Rossi's achievements, the controversies, his character, and analysis of his bikes. This is a Valentino Rossi book like no other, with photos by Henk Keulemans, who was shooting grand prix racing when Rossi's father Graziano was winning races. Early days, from karting and minimoto bikes to a first GP win, on a 125 Aprilia in the 1996 Czech GP, then onwards to claim the 125cc world title in 1997. Moving up to the 250cc class in 1998 brought four consecutive end-of-season wins riding for Aprilia, followed by a decisive title in 1999 with nine victories. Grabbed by Honda to race its super-successful NSR500, Rossi graduated to the 'class of kings' for 2000, almost becoming champion that season -- but the following year he sealed MotoGP, for 990cc four-stroke bikes, took over and Rossi immediately reigned supreme aboard his Honda RC211V, securing back-to-back titles in 2002 and 2003, before a surprise departure to uncompetitive Yamaha. Rossi rates his first year with Yamaha, 2004, as his best: defying expectation, he won first time out on the YZR-M1 and took a fourth successive title with nine wins. In six more seasons with Yamaha, 2005-10, Rossi collected three more championship crowns, his 2008 success especially sweet because it involved a fightback after two leaner years. Rossi's move to Ducati looked to be an appetising all-Italian prospect but his two winless seasons there, 2011 and 2012, were disastrous. A return to Yamaha never quite recaptured his greatest glories, but Rossi was championship runner-up three

times and came very close to another title in 2015. Beautifully designed and comprehensively illustrated, this book is the complete record of Valentino Rossi's remarkable career in motorcycle racing.

" In compiling this brief history of Grand Prix racing, along with descriptions of the more successful cars, I have limited myself to the period since World War II as the present day Grand Prix cars are mostly derived from the development and design of the early post war years. Although many ideas were taking shape in the period of the mid-thirties — such as the use of De Dion rear axle layouts, independent front suspension systems and hydraulic brakes — the main interest lay in engine design under a free ruling on capacity. It was not until about 1950 that a renaissance began in chassis design for Grand Prix cars and from then on a great deal of knowledge was gained; enough in fact, to enable roadholding to become a very exact science rather than a hit-and-miss affair. This development in the chassis and the search for improved road holding and higher cornering power was accentuated by the beginning of the era of unsupercharged racing, when power outputs were severely curtailed and speed had to be found by other means ..."

Image archivist and transportation historian Jim Harter follows his work, *Early Farm Tractors*, with an even larger collection of images from advertising line art from 1880 to 1930, this time focused on Early Automobiles. Nearly 250 entrancing illustrations -- many suitable for framing -- are gems of the art of commercial engraving. Harter provides a very substantial, detailed history of the development of the "horseless carriage" into the brands famous from the early 20th century -- racers like Stutz, Dusenber,

Stanley, as well as those that became household names like Oldsmobile, Ford, Chrysler and others. Of special interest are the dozens of successful electric automobiles that flourished for 25 years. The history includes many colorful anecdotes about early long-distance races as well as interesting details of engineering breakthroughs. Full bibliography and index.

Jupiter's Travels - Ted Simon's astonishing 4 year motorbike journey around the world The book that inspired Ewan McGregor's Long Way Round In the late 1970s Ted Simon set off on a Triumph and rode 63,000 miles over four years through fifty-four countries in a journey that took him around the world.

Through breakdowns, prison, war, revolutions, disasters and a Californian commune, he travelled into the depths of fear and reached the heights of euphoria. He met astonishing people and was treated as a spy, a welcome stranger and even a god. For Simon the trip became a journey into his own soul, and for many others - including bikers Charley Boorman and Ewan McGreggor - it provides an inspiration they will never forget. This classic text, which has informed a whole genre of travel writing in the thirty years since it was first published, will never be bettered for sheer adventure, passion, humour and honesty.

Brought up in England by a German mother and a Romanian father, Ted Simon found himself impelled by an insatiable desire to explore the world. It led him to abandon an early scientific career in favour of journalism, and he has worked for several newspapers and magazines on Fleet Street and elsewhere. Ted Simon is also the author of *Riding Home* and *The Gypsy in Me*.
