Federal Aviation Regulations/Aeronautical Information Manual 2013

Haynes Manuals N.

America, Incorporated

Includes instructions for creating sixteen model gliders, and provides a history of motorless planes from the early nineteenth-century to the new PW-5 Smyk which will be used in the 2000 Olympic games

Harley-Davidson FXD Dyna Causey Enterprises, LLC

One of the great aircraft of the Cold War era, the McDonnell Douglas F-4 Phantom II was the most heavily produced supersonic, all-weather fighter bomber. Capable of a top speed of Mach 2.23, it set sixteen world records including an absolute speed record of 1,606 mph and an altitude record of 98,557 feet. The F-4 flew Vietnam, in the Arab-Israeli

conflict, and the Gulf War and amassed a record of 393 aerial victories. F-4s also flew as part of the USAF Thunderbirds and the U.S. Navy Blue Angels flight demonstration teams. Originally printed by McDonnell and the U.S. Navy in the 1960s, this flight operating handbook taught pilots everything they needed to know before entering the cockpit. Classified "restricted", the manual was recently declassified and is here reprinted in book form. This affordable facsimile has been reformatted. Care has been taken however to preserve the integrity of the text.
