Alfa, Or Lucerne Hal Leonard Corporation Auto Repair For Dummies, 2nd Edition (9781119543619) was previously published as Auto Repair For Dummies, 2nd Edition (9780764599026). While this version features a new Dummies cover and design, the content is the same as the prior release and should not be considered a new or updated product. The top-selling auto repair

guide--400,000 copies sold--now extensively reorganized and updated. Forty-eight percent of U.S. households perform at least some automobile maintenance on their own, with women now accounting for one third of this \$34 billion automotive do-it-yourself market. For new or would-be do-it-yourself mechanics, this illustrated how-to guide has long been a must and now it's even better. A complete reorganization now puts relevant repair and maintenance information

directly after each automotive system overview, making it much easier to find hands-on fix-it instructions. Author Deanna Sclar has updated systems and repair information throughout, eliminating discussions of carburetors and adding coverage of hybrid and alternative fuel vehicles. She's also revised schedules for tune-ups and oil changes, included driving tips that can save on maintenance and repair costs, and added new advice on troubleshooting problems and determining when to call in a

professional mechanic. For anyone who wants to save money on car repairs and maintenance, this book is the place to start. Deanna Sclar (Long Beach, CA), an acclaimed auto repair expert and consumer advocate, has contributed to the Los Angeles Times and has been interviewed on the Today show, NBC Nightly News, and other television programs.

A diversified foursome from Rocket

Land, Florida, challenges the lure of a pirate's treasure map. Distracting hurricanes, clandestine treasure hunters, offshore money mongers and international intrigue complicate their plans. Once by air, then again by sea, a con man leads them on. Each man seeking a different result finds his participation in this fiasco to be self-

incriminating. Bargaining with the devil's advocates turns a seemingly simple idea into a chaotic catastrophe. Crossing the ADIZ isn't simple. Having the Bahamas for a playing field and the Atlantic Ocean for swimming is not simple-if you can neither fly nor swim. The pure terror of fighting so many unknowns explodes into a rollicking success. These men

don't live by hope and consequences-theirs is a divine admiration for each other. Out of the darkness, fear and tragedy melt away.
