160 in One Electronic Project Kit for Ages 10 and up Manual (Science Fair Cat. No. 28-258) Paperback – 1982 by Radio Shack (Author)

Science Fair 200 in One Electronic Project Lab

The Science Fair 200 in One Electronic Project Lab is an educational kit manufactured by Radio Shack in Taiwan in 1987, although an earlier version of this lab first became available in 1981. It is also identical to the modern incarnation known as Maxitronics MX-907, which has the same projects and is currently available online.

60 in 1 Electronic Project Lab - Online Toys Australia

One particular project that fascinated me was the 3 transistor Reflex/Regen radio using a AF116 and 2 AC126. Though meant for the AM band, we modified it for Shortwave (upto around 7 MHz). That was back in late 60's.

60+ Power Electronics Projects for Engineering Students

60+ Power Electronics Projects for Engineering Students Power Electronics is an application of solid state electronics for the control and conversion of electric power. It deals with design, control, computation and integration of nonlinear, time varying energy processing electronic systems with fast dynamics.

60 In One Electronic Project

Just picked up the 160 in one for my 8 year old son. Did not know at the time there was a manual till my brother said there should be one. My son is excited to use this. Do you still have the manual? Would you be interested in sending me a copy or the original if worried about copy rights? Let me know. Thanks! Carol

This is the same file (RadioShack 160 in One Electronic Project Kit.pdf = 160_manual.pdf), both 28427667 bytes and MD5 hash a505facd1a315038cff7f621d21c945a.
