640 Rotax Engine

640 - lots of power, hard to pull over, can be tricky to start....like any of the old twins, they tend to run hot on one side....reliability is so-so.... 1971 TNT 640 is book rated at 40 HP. (oddly enough, the 640 Nordic and Alpine are rated at 35 hp) Fairly quick sled, they just don't corner the best.... #3
