Brilliant. Colorful. Visionary. Tenacious. Witty. Since his appointment to the Supreme Court in 1986, Associate Justice Antonin Scalia has been described as all of these things and for good reason. He is perhaps the best-known justice on the Supreme Court today and certainly the most controversial. Yet most Americans have probably not read even one of his several hundred Supreme Court opinions. In *Scalia Dissents*, Kevin Ring, former counsel to the U.S. Senate's Constitution Subcommittee, lets Justice Scalia speak for himself. This volume—the first of its kind— showcases the quotable justice's take on many of today's most contentious constitutional debates. *Scalia Dissents* contains over a dozen of the justice's most compelling and controversial opinions. Ring also provides helpful background on the opinions and a primer on Justice Scalia's judicial philosophy. *Scalia Dissents* is the perfect book for readers who love scintillating prose and penetrating insight on the most important constitutional issues of

our time.
