In this brilliant novel in Robert

B. Parker's New York Times bestselling series, police chief Jesse Stone faces a ruthless hit man. All is quiet in Paradise, except for a spate of innocuous vandalism. Good thing, too, because Jesse Stone is preoccupied with the women in his life, both past and present. As his ex-wife Jenn is about to

---

marry a Dallas real-estate tycoon, Jesse isn't too sure his relationship with former FBI agent Diana Evans is built to last. But those concerns get put on the back burner when a major Boston crime boss is brutally murdered. Despite all evidence to the contrary, Jesse suspects it's the work of Mr. Peepers, a psychotic assassin who has caused trouble for Jesse in the past. Peepers has long promised revenge against the mob, Jesse, and Suit for their roles in foiling one of his hits—and against Jenn as well. And though Jesse and Jenn have long parted ways, Jesse still feels responsible for her safety. Jesse and Diana head to Dallas for the wedding and, along with the tycoon's security team, try to stop Peepers before the bill comes due. With Peepers toying with the authorities as to when and where he'll strike, Jesse is up against the wall. Still, there's a debt to pay and blood to be

spilled to satisfy it. But whose blood, and just how much? American Betrayal Harper Collins

Pork barrel projects would surely rank near the top of most observers' lists of Congress's most widely despised products. Yet, political leaders in Congress and the President often trade pork for votes to pass legislation that serves broad national purposes, giving members of Congress pork barrel projects in return for their votes on general interest legislation. It is a practice that succeeds at a cost, but it is a cost that many political leaders are willing to pay in order to enact the broader public policies that they favor. There is an irony in this: pork barrel benefits, the most reviled of Congress's legislative products, are used by policy coalition leaders to

---

produce the type of policy that is most admired - general interest legislation. This book makes the case that buying votes with pork is one way in which Congress solves its well-known collective action problem.

In 1983, when Evans came up with the vision for the first-ever memorial on the National Mall to honor women who 'd worn a military uniform, she wouldn ' t be deterred. She remembered not only her sister veterans, but also the hundreds of young wounded men she had cared for, as she expressed during a Congressional hearing in Washington, D.C.: " Women didn ' t have to enter military service, but we stepped up to serve believing we belonged with our brothers-in-arms and now we belong with them at the Vietnam Veterans

Memorial. If they belong there, we belong there. We were there for them then. We mattered. " In the end, those wounded soldiers who had survived proved to be there for their sisters-in-arms, joining their fight for honor in Evans ' journey of combating unforeseen bureaucratic obstacles and facing mean-spirited opposition. Her impassioned story of serving in Vietnam is a crucial backstory to her fight to honor the women she served beside. She details the gritty and high-intensity experience of being a nurse in the midst of combat and becomes an unlikely hero who ultimately serves her country again as a formidable force in her daunting quest for honor and justice.

It almost seems that Thomas Mellon Evans was a man so far ahead of his contemporaries

that he had moved into the shadows before the full force of his business style had dawned on the rest of corporate America. At every step in his career, he was barging in where few would follow -- at first. But follow they did, at last." -- from the Prologue The first in-depth portrait of the life and times of the trailblazing financier Thomas Mellon Evans -- the man who pursued wealth and power in the 1950s with a brash ruthlessness that forever changed the face of corporate America. Long before Michael Milken was using junk bonds to finance corporate takeovers, Thomas Mellon Evans used debt, cash, and the tax code to obtain control of more than eighty American

companies. Long before investors began to lobby for "shareholder's rights," Evans was demanding that public companies be run only for their shareholders -- not for their employees, their executives, or their surrounding communities. To some, Evans's merciless style presaged much that is wrong with corporate life today. To others, he intuitively knew what was needed to keep America competitive in the wake of a global war. In *The White Sharks of Wall Street*, New York Times investigative reporter Diana Henriques provides the first biography of this pivotal figure in American business history. She also portrays the other pioneering corporate raiders of the postwar

---

period, such as Robert Young and Louis Wolfson, and shows how these men learned from one another and advanced one another's takeover tactics. She relates in dramatic detail a number of important early takeover fights -- Wolfson's challenge to Montgomery Ward, Young's move on the New York Central Railroad, the fight for Follansbee Steel -- and shows how they foreshadowed the desperate battle waged by Tom Evans's son, Ned Evans, to keep the British raider Robert Maxwell away from his Macmillan publishing empire during the 1980s. Henriques also reaches beyond the business arena to tally the tragic personal cost of Evans's pursuit of success and to

show how the family dynasty shattered when his sons were driven by his own stubbornness and pride to become his rivals. In the end, the battling patriarch faced his youngest son in a poignant battle for control at the Crane Company, the once-famous Chicago plumbing and valve company that Tom Evans had himself seized in a brilliant takeover coup twenty-five years earlier. The White Sharks of Wall Street is a fascinating portrait of an extraordinary man, whose career blazed across the sky and then sank into obscurity -- but not before he had provided the template for how American business would operate for the next four decades. Migration to new destinations in Europe and the United States has expanded dramatically over the past few decades. Within these destinations, there is a corresponding greater variety of ethnic, cultural, and/or religious diversity. This timely volume, *The Politics of New Immigrant Destinations*, considers the challenges posed by this proliferation of diversity for governments, majority populations, and immigrants. The contributors assess the effectiveness of the policy and

political responses that have been spawned by increasing diversity in four types of new immigrant destinations: “intermediate” destination countries—Ireland and Italy; culturally distinct regions experiencing new migration such as Catalonia in Spain or the American South; new destinations within traditional destination countries like the state of Utah and rural towns in England; and “early migration cycle” countries including Latvia and Poland. *The Politics of New Immigrant Destinations* examines how these new destinations for immigrants compare to traditional destinations, with respect to their policy responses and success at integrating immigrants, offering perspectives from both immigrants and natives. Contributors include: Dace Akule, Amado Alarcón, Rhys Andrews, Francesca Campomori, Tiziana Caponio, Scott Decker, Erica Dobbs,

No one wants what no one wants. And how do we even know what we want? How do we know we ' re ready to take it? Edie is stumbling her way through her twenties—sharing a subpar apartment in Bushwick, clocking in and out of her admin job, making a series of inappropriate sexual choices. She is also haltingly, fitfully giving heat and air to the art that simmers inside her. And then she meets Eric, a digital archivist with a family in New Jersey, including an autopsist wife who has agreed to an open marriage—with rules. As if navigating the constantly shifting landscapes of contemporary sexual manners and racial politics weren ' t hard enough, Edie finds herself unemployed and invited into Eric ' s home—though not by Eric. be the only Black woman young Akila knows. Irresistibly unruly and strikingly beautiful, razor-sharp and slyly comic, sexually charged and utterly absorbing, Raven Leilani's *Luster* is a portrait of a young woman trying to make sense of her life—her hunger, her anger—in a tumultuous era. It is also a haunting, aching description of how hard it is to believe in your own talent, and the unexpected influences that bring us into ourselves along the way. “An irreverent intergenerational tale of race and class that's blisteringly smart and fan-yourself sexy.”

In *The Death of the Grown-Up*, Diana West diagnosed the demise of Western civilization by looking at its chief symptom: our inability to become adults who render judgments of right and wrong. In *American Betrayal*, West digs deeper to discover the root of this malaise and uncovers a body of lies that Americans have been led to regard as the near-sacred history of World War II and its Cold War aftermath. Part real-life thriller, part national tragedy, *American Betrayal* lights up the massive, Moscow-directed penetration of America's most hallowed halls of power, revealing not just the familiar struggle between Communism and the Free World, but the hidden war between those wishing to conceal the truth and those

---

trying to expose the increasingly official web of lies. American Betrayal is America's lost history, a chronicle that pits Franklin Delano Roosevelt, Harry Truman, Dwight David Eisenhower, and other American icons who shielded overlapping Communist conspiracies against the investigators, politicians, defectors, and others (including Senator Joseph McCarthy) who tried to tell the American people the truth. American Betrayal shatters the approved histories of an era that begins with FDR's first inauguration, when "happy days" are supposed to be here again, and ends when we "win" the Cold War. It is here, amid the rubble, where Diana West focuses on the World War II--Cold War deal with the devil in which America

surrendered her principles in exchange for a series of Big Lies whose preservation soon became the basis of our leaders' own self-preservation. It was this moral surrender to deception and self-deception, West argues, that sent us down the long road to moral relativism, "political correctness," and other cultural ills that have left us unable to ask the hard questions: Does our silence on the crimes of Communism explain our silence on the totalitarianism of Islam? Is Uncle Sam once again betraying America? In American Betrayal, Diana West shakes the historical record to bring down a new understanding of our past, our present, and how we have become a nation unable to know truth from lies. undeniably witty debut novel that will speak to those who have gone looking for love and found something very different in its place. Queenie Jenkins is a twenty-five-year-old Jamaican British woman living in London, straddling two cultures and slotting neatly into neither. She works at a national newspaper, where she 's constantly forced to compare herself to her white middle class peers. After a messy break up from her long-term white boyfriend, Queenie seeks comfort in all the wrong places...including several hazardous men who do a good job of occupying brain space and a bad job of affirming self-worth. As Queenie careens from one questionable decision to another, she finds herself wondering, " What are you doing? Why are you doing it?

Who do you want to be? " —all of the questions today ' s woman must face in a world trying to answer them for her. With " fresh and honest " (Jojo Moyes) prose, Queenie is a remarkably relatable exploration of what it means to be a modern woman searching for meaning in today ' s world.

In her final novel, “ a beautiful and devastating examination of family, society and race ” (The New York Times), Dorothy West offers an intimate glimpse into the Oval, a proud, insular community made up of the best and brightest of the East Coast's Black bourgeoisie on Martha ' s Vineyard in the 1950s. Within this inner circle of "blue-vein society," we witness the prominent Coles family gather for the wedding of the loveliest daughter, Shelby, who could have chosen from "a whole area of eligible men of the right colors and the right professions." Instead, she has fallen in love with and is about to be married to Meade Wyler, a white jazz musician from New York. A shock wave breaks over the Oval as its longtime members grapple with the changing face of its

community. With elegant, luminous prose, Dorothy West crowns her literary career by illustrating one family's struggle to break the shackles of race and class. Shortlisted for the Women's Prize for Fiction, Diana Evans' Ordinary People received international acclaim for its "forensic look at the pleasures and perils of marriage and parenting" (Sarah Waters, Guardian). In a crooked house in South London, Melissa feels she's defined solely by motherhood, while Michael mourns the thrill of their romance. In the suburbs, Stephanie's aspirations for bliss on the commuter belt compound Damian's itch for a bigger life. Longtime friends from the years when passion seemed permanent, the couples have stayed in touch, gathering for births and holidays. But as bonds fray, lines once clearly marked by wedding bands aren't so simply defined. Sweeping eloquently from the specific to the universal, Ordinary People is "a precise sketch of the British black middle class, with a daring fifth-act twist" (Katy Waldman, New
