Automotive FDI in Emerging Europe
Plunkett Research, Ltd.

This book examines the dramatic
increase in automotive assembly plants
in the former Socialist Central
European (CE) nations of Czechia,
East Germany, Hungary, Poland, and
Slovakia from 1989 onwards. Enticed
by relatively lower-wage labour and
significant government incentives, the
world's largest automakers have
launched more than 20 passenger car
assembly complexes in CE nations,
with production accelerating
dramatically since 2001. As a result,
the annual passenger car production in
Western Europe declined by more than
20% between 2001 and 2015, and
alternatively in the CEE it increased by
nearly 170% during this period.

Drawing on case studies of 25 current
and former foreign-run assembly
plants, the author presents a rare
historical account of automotive foreign
assembly plants in the CE following this
dramatic geographic shift. This book
will expand the knowledge of policy-
makers in Europe in relation to their
pursuits of FDI and will be of great
interest to scholars and students of
business, economic history, political
science, and development.

Successful interaction with products, tools
and technologies depends on usable
designs and accommodating the needs of
potential users without requiring costly
training. In this context, this book is
concerned with emerging ergonomics in
design concepts, theories and applications
of human factors knowledge focusing on
the discovery, design and understanding
of human interaction and usability issues
with products and systems for their
improvement. This book will be of special
value to a large variety of professionals,
researchers and students in the broad field
of human modeling and performance who
are interested in feedback of devices'
interfaces (visual and haptic), user-
centered design, and design for special
populations, particularly the elderly. We
hope this book is informative, but even
more - that it is thought provoking. We
hope it inspires, leading the reader to
contemplate other questions, applications,
and potential solutions in creating good
designs for all.

Men with Balls Penguin

This will be the very last book you ever read. Because after you have read this book, you, Good Sir, will know how to be a pro athlete. And pro athletes don't need books. Or strong family bonds. Or any of that stupid crap. Not when they have ready access to millions of dollars and scores of smoking hot chicks with questionable judgment. This book will be all you require to cast aside your boring life as some jackass who cruises around bookstores hoping to score grad-school trim. With Men with Balls, you will learn how to: Showboat using classical pantomime techniques Figure out whether or not a stripper actually fancies you Emotionally cope from the emotional fallout of rookie year hazing games Find out which free locker room amphetamines will give you a shot of energy, and which will cause you to run down terrified schoolchildren with your Escalade (NOTE: Some do both) Avoid media scrutiny by directing beat writers and columnists to the nearest hot buffet So grab your balls, bookboy. You're about to become a home-run hitting, steroid-injecting, angry-orgy-having Turbostud. They're gonna need a whole ocean just to wash your jock.

This candid memoir of music, fame, and endurance from Deryck Whibley, lead singer of Sum 41, follows his rise from a punk kid to an international star. From his earliest days growing up in Canada, Deryck Whibley was a punk who loved music and couldn't wait to achieve something bigger and better than the humble path that lay before him. Whibley was raised by a single mom and their small family constantly moved from place to place, so he was used to being the new kid, starting fights (or finishing them), and connecting with people who shared his sensibility for chaotic fun and loud music. Sum 41 was born of a group of friends who loved to jam, shared a DIY ethos, and were determined to be rock stars one day. Walking Disaster is Whibley's story, but it is also the untold story of Sum 41. Whibley takes you backstage, into the recording booth, and through the highest highs and lowest lows of the band whose story is inextricably woven with his own. With his insightful, earnest, and genuine voice, Whibley gets real about fame, fortune, and the music industry. Detailing everything from winning at the MTV Video Music Awards and being nominated for a Grammy to revisiting his high-profile relationships and friendships, contending with invasive paparazzi, and suffering from health issues that brought him to the brink, Whibley offers a forthright and unforgettable memoir.

Jeremy Clarkson gets REALLY riled up in Round the Bend What's it like to drive a car that's actively trying to kill you? This and many other burning questions trouble Jeremy Clarkson as he sets out to explore the world from the safety of four wheels. Avoiding the legions of power-crazed traffic wombles attempting to block highway and byway, he he: - Shows how the world of performance cars may be likened to Battersea Dogs Home - Reveals why St Moritz may be the most bonkers town in all of the world - Reminds us that Switzerland is so afraid of snow that any flakes falling on the road are immediately arrested - Argues that washing a car is a waste of time Funny, globe-trotting, irreverent and sometimes downright rude, Round the Bend is packed with curious and fascinating but otherwise hopelessly useless stories and facts about everything under the sun (and just occasionally cars). It's Jeremy Clarkson at his brilliant best. Praise for Jeremy Clarkson 'Brilliant . . . laugh-out-loud' Daily Telegraph 'Outrageously funny . . . will have you in stitches' Time Out 'Very funny . . . I cracked up laughing on the tube' Evening Standard

Best known as the third presenter in the unholy trinity that is Clarkson, Hammond and May on Top Gear, James May has lived, breathed and dreamt about cars his entire life. There is something about cars that stirs up intense feelings in people - how it makes them look to the outside world, how it makes them feel about themselves, how it looks to their girlfriends or their mates, or their neighbours. These feelings are humorously described in May on Motors, as James takes us on the road and looks at the cars that have shaped him, his world and the ordinary people of Britain. In May on Motors, James has brought together his most controversial and amusing pieces to make a brilliant collection that will amuse and inspire all car enthusiasts.

Autocar Springer

Packed with more than a hundred completely charismatic classic cars, this book is the ideal gift for anyone driven to admire these majestic machines. One of the most recognised and revered car brands, Bentley celebrates its centenary in 2019. In conjunction with the Bentley Drivers Club and the W.O. Bentley Memorial Foundation, 100 Years of Bentley is a lavish celebration of the company, from its earliest models right up the modern day cars. A six-times winner in the gruelling Le Mans 24-hour race, Bentley is also the brand behind iconic cars such as the 41/2-Litre 'Blower', the R-type Continental, and modern classics such as the Continental GT and Mulsanne. Featuring more than 200 pictures, many from the club's archives and some never seen in print before, this beautiful book details the whole history of Bentley. From W.O. Bentley's early

days as a railway engineer along with his first attempts at modifying French DFP cars, to the company's early racing exploits, including its victories in the early Le Mans races. Covering the Bentley brand's revival in the 1980s and renewed impetus when it was acquired by the Volkswagen group, the story is brought up to date with the awesome new Bentleys built for the 21st century and the new era of electrification just around the corner.
