Awarded the Nobel Prize for
Literature in 1969, Samuel
Beckett's influence on 20th
century fiction and drama is
immeasurable. Published in

conjunction with the RT (Radio Telef s ireann) Thomas Davis Lecture Series to mark the centenary of Beckett's birth, Samuel Beckett - 100 Years consists of thirteen essays by many of the foremost academics studying Beckett today. Literary luminaries such as John Banville and Anthony Cronin line up alongside philosophers Dermot Moran and Richard Kearney to delve into the psyche of the man responsible for classics such as Murphy, Krapp's Last Tape, and Waiting for

Godot, while actors Barry McGovern and Rosemary Pountney describe what makes his works so theatrical. The book is a challenging and serious look at Beckett's work and its impact on literature today.

Motorcycles and Our 2nd 50 Years Haynes Manuals Regarded by many as one of the greatest tanks ever built, the German Panther is probably the finest medium tank of the Second World War and certainly the most numerous German panzer in wartime service, with some 7,000 built. It combined firepower, armour protection and mobility that was unmatched by any

other tank of the period. In the Panther Tank Enthusiasts' Manual, author Mark Healy looks at the development, construction and fighting qualities of the Panther, as well as including insights into what it was like to operate and maintain. He focuses on surviving Panthers at the German Armour Museum in Munster (Panther Ausf A) and the later Panther Ausf G at the Tank Museum, Bovington, as his centrepieces and draws on a range of documentary and photographic information sources in Germany, the USA and France.
