Matchbox toys were ubiquitous items for children across the Western world. Originally labelled Christmas-cracker trash by retailers and shopkeepers, the small-scale 1-75 series soon began to see unprecedented worldwide sales in the 1950s. Smaller and cheaper than most of its competitors' toys, Matchbox models were also far more accurately modelled, but the company has nevertheless seen its own share of competition and challenging times over the years. In this beautifully illustrated book, Matchbox collector Nick Jones tells the story of Matchbox and its most famous toys, from the Coronation Coach to Hotwheels dragsters, and complements the story with beautiful, previously unpublished photographs.

Muscle Cars is the story of America's pursuit of sheer horsepower in the 1960s and '70s. The first of the type, the famous Pontiac GTO or "Goat," would launch a race between America's automotive manufacturers to produce ever-more-powerful V8 engines wrapped in legendary "Coke-bottle" sheet metal styling. Following Ford's extremely successful introduction of the galloping Mustang in 1964, others would follow, such as General Motors's Camaro and Firebird as well as Plymouth's Barracuda, competing against one another on race tracks to "Win on Sunday, Sell on Monday." This book details these golden years, as well as the economic and environmental developments of the 1970s that brought an end to the muscle car era.
