The New York Times–bestselling authors of Hit List examine questionable deaths & “suicides” in this collection of conspiracy theories. For years, the government has put out hits on people that they found “expendable,” or who they felt were “talking too much,” covering up their assassinations with drug overdoses and mysterious suicides. In *Dead Wrong*, a study of the scientific and forensic facts of various Government cover-ups, Richard Belzer and David Wayne argue that Marilyn Monroe was murdered and that the person who shot Martin Luther King Jr. was ordered to do so by the government. They also examine many other terrifying lies we've been told throughout our country's history. The extensive research shows how our government has taken matters into its own hands, plotting murder whenever it saw fit. Belzer and Wayne also examine the deaths of White House Counsel Vincent Foster, U.N. Weapons Inspector Dr. David C. Kelly, and bio-weapons expert Dr. Frank Olson, as well as the cases of two murders directly linked Lyndon B. Johnson, the 36th President of the United States. “Big Brother” is watching you—through the scope of a sniper rifle. *Dead Wrong* will give you the straight facts on some of the most controversial and famous deaths this country has ever seen. The harsh reality is that our government only tells us what we want to hear, as they look out for their own best interests and eliminate anyone who gets in their way.

Haynes Manuals N. America, Incorporated

Welcome to our world, the world of the ordinary golfer. This book is the first compilation of the Rules of Golf according to the North Park Golf Association. The Rules were found to be necessary for the mental health and sanity of the multitude of golfers all over the world who know, with just a little more time and practice, they could do better both as golfers and as human beings. The sad truth is this: The definition of insanity is playing golf over and over again and expecting a different result. Yet we play. And we pay good money to play. And we gleefully squander any financial windfall on a new set of Pings. And if the new clubs don't result in lower scores, we blame the course, the weather, the gods. Or at least that's what we tell our long-suffering spouses. So the first lesson in golf is to realize that the distance between you and the world's No. 1 golfer is tantamount to the distance between Earth and the Oort Cloud. That distance is not going to be crossed by a human in your lifetime. However, the world's No. 1 golfer is given advantages not available to you and me. This is one of the revelations available in this book, and the reason for the North Park Golf Association Rules of Golf. "We" are the people I've played with for decades, and you'll meet them all at their best and their not-so-best.

They will help you understand that the purpose of this book is to make the game more fun and less taxing on the golfer's soul, so enjoy.
