From the Chrysler Six of 1924 to the front-wheel-drive vehicles of the 70s and 80s to the minivan, Chrysler boasts an impressive list of technological "firsts." But even though the company has catered well to a variety of consumers, it has come to the brink of financial ruin more than once in its seventy-five-year history. How Chrysler has achieved monumental success and then managed colossal failure and sharp recovery is

explained in *Riding the Roller Coaster*, a lively, unprecedented look at a major force in the American automobile industry since 1925. Charles Hyde tells the intriguing story behind Chrysler-its products, people, and performance over time-with particular focus on the company's management. He offers a lens through which the reader can view the U.S. auto industry from the perspective of the smallest of the automakers who, along with Ford and General Motors, make up the "Big Three." The book covers Walter P. Chrysler's life and automotive career before 1925, when he founded the Chrysler Corporation, to 1998, when it merged with Daimler-Benz. Chrysler made a late entrance into the industry in 1925 when it emerged from Chalmers and Maxwell, and further grew when it absorbed Dodge Brothers and American

Motors Corporation. The author traces this journey, explaining the company's leadership in automotive engineering, its styling successes and failures, its changing management, and its activities from auto racing to defense production to real estate. Throughout, the colorful personalities of its leaders—including Chrysler himself and Lee Iacocca—emerge as strong forces in the company's development, imparting a risk-taking mentality that gave the company its verve.

One of the greatest innovators of his time, Dick

Landy was one of those guys who made you rush back to your seat from the concessions stand so you could watch him navigate the 1320. Win, lose, or draw, watching one of Landy's Dodges battling the likes of Ronnie Sox, "Grumpy" Jenkins, or Hubert Platt was worth the price of admission alone. Landy's Dodges: The Mighty Mopars of "Dandy" Dick Landy takes you chronologically through the cars of Dick's career, from piloting his first mount (1954 Ford Pickup) through his historic years of campaigning Dodges. Chrysler racing historian and author Geoff Stunkard presents a highly detailed account of Dick's cars, including results and images from the Landy family's personal archive and modern shots of his restored cars. In addition to coverage of Dick's 1964 S/S Dodge and 1968 Hemi Dart, scarce info about his Ford Galaxies and Plymouth Savoy is included as well. At no other time has Landy's entire career been chronicled and cataloged in print with this much attention to detail. Sit back in your recliner (wheels up) and enjoy the most comprehensive book on the history of "Dandy" Dick Landy and his cars.

Life care planning is an advanced collaborative case management specialty practice focused on assessing, evaluating, coordinating, consulting, planning for, and

monitoring necessary services for individuals with complex medical care needs over their lifetime. This handbook provides a comprehensive resource for all people involved with catastrophic impairments and chronic medical care case management. The Life Care Planning and Case Management Handbook, Fourth Edition, begins by defining the roles played by each of the key team members working with the life care planner. It provides planners with insights critical to successful interactions with medical and health care – related professionals as well as the team members they are most likely to encounter as they work to build an accurate and reliable life care plan. Next, the text offers up-to-date information on the medical conditions most frequently encountered by the life care planner. The contributors, who are recognized experts in their disciplines, also address issues in forensic settings, ethics, standards, research, and credentials. The fourth edition includes numerous chapters on general issues, as well as updated standards of practice from the International Academy of Life Care Planners (IALCP), Life Care Planning Consensus Statements, and valuable step-by-step charts and checklists.

Completely updated and expanded, this revised handbook now includes new chapters on multicultural considerations in life care planning, admissibility of life care plans in U.S. courts, and Canadian life care planning practice. Additionally, infused in other chapters, is new information on medical coding and costing for life care planners, life care planning in non-litigated contexts, as well as research and education within life care planning.
