One of the greatest innovators of his time, Dick Landy was one of those guys who made you rush back to your seat from the concessions stand so you could watch him navigate the 1320. Win, lose, or draw, watching one of Landy's Dodges battling the likes of Ronnie Sox, "Grumpy" Jenkins, or Hubert Platt was worth the price of admission alone. Landy's Dodges: The Mighty Mopars of "Dandy" Dick Landy takes you chronologically through the cars of Dick's career, from piloting his first mount (1954 Ford Pickup) through his historic years of campaigning Dodges. Chrysler racing historian and author Geoff Stunkard presents a highly detailed account of Dick's cars, including results and images from the Landy family's personal archive and modern shots of his restored cars. In addition to coverage of Dick's 1964 S/S Dodge and 1968 Hemi Dart, scarce info about his Ford Galaxies and Plymouth Savoy is included as well. At no other time has Landy's entire career been chronicled and cataloged in print with this much attention to detail. Sit back in your recliner (wheels up) and enjoy the most comprehensive book on the history of "Dandy" Dick Landy and his cars.

Kaseberg/Cripe/Wildman's respected INTRODUCTORY ALGEBRA is known for an informal, interactive style that makes algebra more accessible to students while maintaining a high level of mathematical accuracy. This new edition introduces two new co-authors, Greg Cripe and Peter Wildman. The three authors have created a new textbook that introduces new pedagogy to teach students how to be better prepared to succeed in math and then life by strengthening their ability to solve critical-thinking problems. This text's popularity is attributable to the author's use of guided discovery, explorations, and problem solving, all of which help students learn new concepts and strengthen their skill retention. Important Notice: Media content referenced within the product description or the product text may not be available in the ebook version.
