The Mustang GT/CS Recognition Guide & Owner's Manual by Paul M. Newitt and licensed by Ford is a hardbound, full color 224 page detailed story of the limited-edition 1968 Ford Mustang--which was created just for California. The story of how the California-Crazy car culture in the 1960s prompted the marketing of Mustang's first factory-produced special edition is described in incredible detail - from the inspiration of Shelby's "Little Red" coupe to the development by Ford Design to become 4,118 GT/California Specials. The story continues with the marketing plan by J.Walter Thompson and California's Ford Dealer's Association to bring this Mustang to market in the spring of 1968. A detailed account of the GT/CS variant, the "High Country Special," sold in the Denver sales district is also included. Detailed production statistics, rare factory photos, authentication, options, accessories, specific part descriptions and comprehensive Concours restoration information are covered, along with the complete stories of the Shelby prototype coupes "Little Red," and the EXP-500 "Green Hornet." A separate chapter is devoted to the development, prototypes and production of the 2007-09 and 2011 GT/CS, and a complete GT/CS Owner Registry of 1,300 cars with photos rounds out the volume. Each book is beautifully bound, signed and numbered. A very special, limited edition for Mustang collectors!

This book contains information necessary to the proper handling and care of your Ford car. Read it carefully—particularly the instructions on lubrication, the cooling system, care of battery, etc., which are absolutely necessary to economical and satisfactory operation. Your car is a splendid piece of machinery. If properly cared for, it will give you years of satisfactory service at little cost. When repairs are needed, we recommend having the work done by an authorized Ford dealer. They are provided with special service equipment. Furthermore they are interested, more than any one else, in your personal satisfaction with the car. Let experienced mechanics make repairs or adjustments. Your car is too valuable a piece of machinery to place in unskilled hands. Expert workmanship is just as essential in servicing your car as it is in building it.
