[Mopar B-Body Restoration 1966-1970](#) Chartwell Books

Now in paperback, this book covers Chrysler's incredible series of muscle cars. In 1955 Chrysler introduced the first of its famed 300 "letter series" cars. The company designed a stylish, sporty car, stuffed in one of its potent Hemi engines, and gave birth to the American muscle car. The C-300's combination of style and performance put the Mopar brand ahead of its competitors in the postwar performance race. When the Detroit performance wars began in earnest during the 1960s, Chrysler was well positioned to build the most outrageous, bodacious cars of an outrageous, bodacious era, cars like the famed Charger, Hemi Cuda, Road Runner, Superbird, and Challenger T/A. These cars dominated the dragstrips as well as the NASCAR ovals, and with color combinations guaranteed to burn out the corneas of your eyes if you stared at them directly, they ruled the streets of America; they ruled not just the streets, but the drive ins and parking lots. Nothing was cooler than Mopar muscle. Over the years these legendary Mopar muscle cars were the fastest, baddest assed, most outrageous machines to rip up American pavement. "This lavishly produced book is definitely a feast for all fans of this line of cars: the photography (by David Newhardt) is absolutely stunning. Not only are the pictures big, and of the highest quality, but the thought that has gone into their composition is plain for all to see. It could be argued that given the striking nature of these cars, and the wonderful backdrops, it would be hard to go wrong, but Newhardt went the extra mile here, and it shows. The story is also very comprehensive, listing all of the cars from the line, and taking time to tell the story in a well-researched, yet caring way. It is obvious that Robert Genat knows the subject well and loves it even more. . . . This book is a must-have for all lovers of American muscle, and thanks to the sheer depth of its coverage and drop-dead-gorgeous

photography, the asking price of £ 34.99 is something of a bargain." Within a couple of model years, the Charger went from stodgy to sexy, so much so that it became a darling of film and television, appearing in many of the hit cult films produced by the maverick breed of filmmakers taking over Hollywood at the time. Even more important than the Charger were the B-Body muscle cars it spawned, especially the Plymouth Road Runner, which became one of the most popular muscle cars of the era. Dodge followed with a similar performance car, the Super Bee. Charger, Road Runner & Super Bee: Fifty Years of Chrysler B-Body Muscle tells the entire B-Body story, from the original Dodge Charger through the popular Charger being sold today. The glory years of 1966 to 1971 are the focus, but the years between then and now are covered as well. During that time, the Charger first became a personal luxury car swaddled in Fine Corinthian Leather, then a hot hatchback imbued with the great Carroll Shelby's mojo. Charger's triumphant return to form beginning in 2006 wraps up this compelling, 50-year story of one of America's great performance cars and its siblings.
