Now in paperback, this book covers Chrysler's incredible series of muscle cars. In 1955 Chrysler introduced the first

of its famed 300 "letter series" lots. Nothing was cooler than cars. The company designed a stylish, sporty car, stuffed in one of its potent Hemi engines, and gave birth to the American muscle car. The C-300's combination of style and performance put the Mopar brand ahead of its competitors in the postwar performance race. When the Detroit performance wars began in earnest during the 1960s, Chrysler was well positioned to build the most outrageous, bodacious cars of an outrageous, bodacious era, cars like the famed Charger, Hemi Cuda, Road Runner, Superbird, and Challenger T/A. These cars dominated the dragstrips as well as the NASCAR ovals, and with color combinations guaranteed to burn out the corneas of your eyes if you stared at them directly, they ruled the streets of America; they ruled not just the streets, bu the drive ins and parking of its famed 300 "letter series" lots. Nothing was cooler than Mopar muscle. Over the years these legendary Mopar muscle cars were the fastest, baddest assed, most outrageous machines to rip up American pavement. "This lavishly produced book is definitely a feast for all fans of this line of cars: the photography (by David Newhardt) is absolutely stunning. Not only are the pictures big, and of the highest quality, but the thought that has gone into their composition is plain for all to see. It could be argued that given the striking nature of these cars, and the wonderful backdrops, it would be hard to go wrong, but Newhardt went the extra mile here, and it shows. The story is also very comprehensive, listing all of the cars from the line, and taking time to tell the story in a well-researched, yet caring way. It is obvious that Robert

with the top model having a 425bhp 426 Street Hemi motor. Chargers showed well at the NASCAR superspeedways and had a good performance on the street. The first generation, which featured the 440 Magnum engine, was replaced in 1968. Minor cosmetic changes kept the car fresh until reorganization in 1971 brought in a 115-inch wheelbase to minimize weight gain as emissions controls took their toll on power output. By 1974 the Hemi ceased to be an option when all engines were tuned for low-lead gasoline but the Charger remained until 1974 when the name was transferred to a personal luxury line. This is a book of contemporary road and comparison tests, model introductions, technical and specification data, racing, driver's impressions. Models covered include: • 426 Hemi • 440 • 500 • 440 Six-Pack • 440 R/T • Charger SE

*Popular Mechanics* John Wiley & Sons

The Dodge brand has been in existence for over 100years and has carried the spirit of it's founders, John and Horace Dodge who founded the company in 1914. Much of their influence has continued into the design of the 2018 Dodge model, the fastest quarter-mile production car in the world and most powerful muscle car ever. It is America's fastest, most powerful and most capable vehicle. These new SRT ultimate performance models join a brand lineup that includes the Durango, Grand Caravan, Journey, Charger and Challenger, including the 707-horsepower Challenger SRT Hellcat and the Charger SRT Hellcat, the quickest, fastest and most powerful sedan in the world. The Dodge Charger 2018, said to be released in the first half of next year, is a sporty family vehicle which comes equipped with a variety of powertrain configurations. The sedan type vehicle is known for it's heart pounding engine power and is already being rumored as one of the best upcoming sports sedans while it offers the best of both world.
