Manual for Assessing Safety Hardware, 2009 "O'Reilly Media, Inc." Roxy Peck, Chris Olsen and Jay Devore's new edition uses real data and attention-grabbing examples to introduce students to the study of statistical output and methods of data analysis. Based on the best-selling STATISTICS: THE EXPLORATION AND ANALYSIS OF DATA, Fifth Edition, this new INTRODUCTION TO STATISTICS AND DATA ANALYSIS, Second Edition integrates coverage of the graphing calculator and includes expanded

coverage of probability. Traditional in structure yet modern in approach, this text guides students through an intuition-based learning process that stresses interpretation and communication of statistical information. Conceptual comprehension is cemented by the simplicity of notation--frequently substituting words for symbols. Simple notation helps students grasp concepts. Hands-on activities and Seeing Statistics applets in each chapter allow students to practice statistics firsthand.

You know that if you want your car to run smoothly, you have to keep up with the mandatory maintenance. Check the oil every so often, inspect the tires for pressure and wear, get them rotated if they need it, lubricate the locks, and keep up with your car-wash dates. And if you really want to take care of it, have the proper rags and tools on hand to clean off any sudden dirt or fingerprints. Playboy

Playmate, Deal or No Deal model, and Hot Laps host Pilar Lastra has rebuilt a 1990 Mustang using just a fifteen-dollar repair manual and junkyard parts. She's not only fluent in hot rod; she also speaks the language of the opposite sex. Think of Pilar as your ultimate translator. In Treat Me Like Your Car, she teaches you everything you need to know in order to cruise the lot, avoid the lemons, find your dream car, and enjoy the ride. Full of much-needed advice, hilarious real-life relationship scenarios, and Pilar's unique "Tales from the Passenger's Side," Treat Me Like Your Car gives you the tools you need to find and hold a fulfilling relationship. All women (whether they know it or not) want to be treated like your car. Treat Me Like Your Car makes it just as easy. A little elbow grease is a small price to pay for a smooth ride.

An iconic medieval missile weapon, the deadly longbow made possible the English victories at Crecy and Poitiers at the height of

the Hundred Years' War. The longbow was the weapon at the heart of the English military ascendancy in the century after 1340. Capable of subjecting the enemy to a hail of deadly projectiles, the longbow in the hands of massed archers made possible the extraordinary victories enjoyed by English forces over superior numbers at Crécy and Poitiers, and remained a key battlefield weapon throughout the Wars of the Roses and beyond. It also played a leading role in raiding, siege and naval warfare. Its influence and use spread to the armies of Burgundy, Scotland and other powers, and its reputation as a cost-effective and easily produced weapon led to calls for its widespread adoption among the nascent armies of the American Republic as late as the 1770s.

First published by the Combat Studies Institute Press. The resulting anthology begins with a general overview of urban operations from ancient times to the midpoint of the twentieth century. It then details ten specific case studies of U.S., German, and Japanese operations in cities during World War II and ends with more recent Russian attempts to subdue Chechen fighters in Grozny and the Serbian siege of Sarajevo.

Operations range across the spectrum from combat to humanitarian and disaster relief. Each chapter contains a narrative account of a designated operation, identifying and analyzing the lessons that remain relevant today.

With an added Appendix and 40+ page Prologue, the second edition of the 2019 Best Indie Book Award (BIBA) winner for the category of Business takes readers through the COVID-19 crisis, building on the key tenets of the first edition. Value Trap received acclaim from the prestigious Next Generation Indie Book Awards, a Finalist in the category of Business. The text was also a Blue Ink Notable Book as well as a Readers' Favorite 5 Stars, named Honorable Mention in the Non-Fiction - General genre. More detail and new commentary, the second edition of Value Trap is a must read for any serious investor. Brian Michael Nelson, CFA, delivers again. From the back cover: "Nelson's career ranges from his beginnings as an analyst at Driehaus Capital Management to his career as director of global equity and credit research at Morningstar, to the recent establishment of his own investment

publishing research firm, Valuentum Securities. Here, the equity-markets veteran explores his analytical framework for evaluating stocks, cautioning against investors getting lured into "value traps," scenarios where seemingly inexpensive stocks attract bargain hunters but continue to decline. Nelson maintains that shortcomings in prevalent financial analysis and investing include misguided focus on historical data, misinterpretation of common metrics, overreliance on indexing, and myopic pursuit of dividend-paying stocks. Instead, he believes enterprise valuation, which considers cash-based sources of intrinsic value of a company, should prevail. Well-researched and organized, the book offers a compelling wealth of information and serious discussion of market theory. It will likely overwhelm all but the most seasoned investors, and cynics may see it as a device to recruit readers to the author's business. Nonetheless, it stands on its considerable merits as a well-written and cogent articulation of a distinct perspective on equity analysis." - BlueInk Review of the first edition as published in the June 2019 spread of Booklist Magazine
