The photos in this edition are black and white. The sport compact performance market is hot and getting hotter - and while the Honda Civic and Acura Integra have long been the dominant players in the market, a newcomer is emerging as a popular car for performance modifications - the Ford Focus. Well-built, inexpensive, good looking, and easy to modify, the Focus is quickly catching the Hondas in terms of market popularity. This book shows Focus owners exactly what it takes to improve their car's performance, from simple modifications like installing a new air intake to radical mods like installing a turbocharger. The author also shows what those modifications can do, with before-and-after dyno tests for each modification. There's also extensive info on suspension and brake modifications for better handling and braking. It's a one-stop shop for those who want a sharper, faster Focus.

IDEO, the widely admired, award-winning design and development firm that brought the world the Apple mouse, Polaroid's I-Zone instant camera, the Palm V, and hundreds of other cutting-edge products and services, reveals its secrets for fostering a culture and process of continuous innovation. There isn't a business in America that doesn't want to be more creative in its thinking, products, and processes. At many companies, being first with a concept and first to market are critical just to survive. In *The Art of Innovation*, Tom Kelley, general manager of the Silicon Valley based design firm IDEO, takes readers behind the scenes of this wildly imaginative and energized company to reveal the strategies and secrets it uses to turn out hit after hit. IDEO doesn't buy into the myth of the lone genius working away in isolation, waiting for great ideas to strike. Kelley believes everyone can be creative, and the goal at his firm is to tap into that wellspring of creativity in order to make innovation a way of life. How does it do that? IDEO fosters an atmosphere conducive to freely expressing ideas, breaking the rules, and freeing people to design their own work environments. IDEO's focus on teamwork generates countless breakthroughs, fueled by the constant give-and-take among people ready to share ideas and reap the benefits of the group process. IDEO has created an intense, quick-turnaround, brainstorm-and-build process dubbed "the Deep Dive." In entertaining anecdotes, Kelley illustrates some of his firm's own successes (and joyful failures), as well as pioneering efforts at other leading companies. The book reveals how teams research and immerse themselves in every possible aspect of a new product or service, examining it from the perspective of clients, consumers, and other critical audiences. Kelley takes the reader through the IDEO problem-solving method: • Carefully observing the behavior or "anthropology" of the people who will be using a product or service • Brainstorming with high-energy sessions focused on tangible results • Quickly prototyping ideas and designs at every step of the way • Cross-pollinating to find solutions from other fields • Taking risks, and failing your way to success • Building a "Greenhouse" for innovation IDEO has won more awards in the last ten years than any other firm of its kind, and a full half-hour Nightline presentation of its creative process received one of the show's highest ratings. *The Art of Innovation* will provide business leaders with the insights and tools they need to make their companies the leading-edge, top-rated stars of their industries.

This book is perfect for beginners, but also provides in depth knowledge that will be useful for intermediate camera users. Written specifically for the GoPro MAX camera.

The Human-Computer Interaction Handbook

It's Father's Day 1972 and a young boy's dad takes him to visit a string of unimpressive ex-girlfriends that could have been his mother; the unconventional detective work of a koan-speaking, Kung Fu-loving uncle solves a case of arson during a pancake breakfast; and a former geology professor, recovering from addiction, finds himself sharing a taxicab with specters from a Jim Crow-era lynching. Set in and around the fictional town of Steepleburg, South Carolina, the loosely tied stories in George Singleton's *Staff Picks* place sympathetic, oddball characters in absurd, borderline surreal situations that slowly reveal the angst of southern history with humor and bite. In the tradition of Donald Barthelme, T. C. Boyle, Flannery O'Connor, and Raymond Carver, Singleton creates lingering, darkly comedic tales by drawing from those places where familiarity and alienation coexist. A remarkable and distinct effort from an acclaimed chronicler of the South, *Staff Picks* reaffirms Singleton's gift for crafting short story collections that both deliver individual gems and shine as a whole.

Understanding and developing expertise is an important concern for any researcher or practitioner working in elite or high performance sport. Whether it's identifying talented young athletes or developing methods for integrating cutting-edge sport science into daily coaching practice, scientists, coaches and researchers all need to understand the skills, characteristics, and knowledge that distinguish the expert performer in sport. *The Routledge Handbook of Sport Expertise* is the first book to offer a comprehensive overview of current research and practice in the emerging field of sports expertise. Adopting a multi-disciplinary, multi-faceted approach, the book offers in-depth discussion of methodological and philosophical issues in sport expertise, as well as the characteristics that describe

sporting 'experts' and how they can be facilitated and developed. Exploring research, theory and practice, the book also examines how scientists and practitioners can work together to improve the delivery of applied sport science. With contributions from many of the world's leading researchers in expertise and skill acquisition in sport, the Routledge Handbook of Sport Expertise is important reading for any advanced student, researcher, coach or sport science support officer looking to better understand this cutting-edge topic.
