When Fiat entered rallying in 1970, its ultimate aim was to become World Rally Champion and the 131 Abarth of 1976-1980 provided the machinery to make that possible. It started winning World rallies within months of being launched, and in 1977, 1978 and 1980 the 'works' team also won the World Championship for Makes, and set every standard by which Rally Giants were to be judged. Was there ever any doubt that successors like the Lancia Rally 037 and the Delta Integrale would eventually come from the same stable?

How to Improve Triumph TR5, 250 & 6 Veloce Publishing Ltd

A fascinating and nostalgic compilation of rider profiles written over a three year period, which originally appeared in Classic Motorcycle magazine, and is now accompanied by a new set of over 100 photographs. All of the riders featured became top achievers in their field, although, for some, it was their first interview. During the 1950s and 60s, scrambling especially drew huge crowds to meetings all across the country, and, thanks to TV coverage such as BBC Grandstand Trophy, and ITV's World of Sport, many of the competitors featured in this book became household names. Each chapter includes the competition years of the riders, and also gives an overview of

their careers, and conveys their enthusiasm for the sport.

Runways and Racers concentrates on the short transitional period, 1952-1954, for sports car racing in America following the ban on public road racing in many of the States. The ban left the rapidly expanding Sports Car Club of America with a problem: where to hold races. At precisely the same time, Curtis LeMay, head of Strategic Air Command, was having problems obtaining funds from Congress to improve conditions on the many air bases located around the country. The solution was a marriage of convenience, whereby the SCCA was allowed access to active SAC air bases to hold its race programmes. In return, the SAC base would receive the net profits from the event, which would be put into the Airmen's Living Improvement Fund. As a result of some initial financial success for the SAC bases, the scheme was also adopted by non-SAC bases together with regional clubs, with the same agreement in place. Complaints from airmen alerted Congressman Errett Scrivner to potential irregularities, and he ordered an audit to be conducted to ascertain precisely what it was costing the air bases to host the races. His findings led to the cessation of the races, ordered by Congress. The product of a long period of extensive research by the author, this book gives a fascinating insight into this two-year period, complemented by over 150 period pictures, many previously unpublished.

Oulton Park in the late 1960s was one of the last circuits to play host to non-championship Formula 1 races. Set in beautiful Cheshire parkland, it has always been a favorite with drivers who relish its challenging curves and with spectators who could watch their heroes compete on a true road circuit. Drivers such as Jim Clark, Jackie Stewart, Graham Hill, Surtees, Rindt and Brabham came to Oulton for the Gold Cup and spectators could see and even meet them in the open paddock atmosphere of the time. Major sports & GT races such as the RAC TT were also on the Oulton Park calendar with Lola T70s, GT40s, Ferraris, Lotii and, of course, Chevrons in the hands of Hulme, Redman, Bonnier and other top drivers. Club race meetings provided variety and plenty of action with the VSCC's Seaman Trophies meeting for vintage and historic racers being the highlight of the season for many racegoers.

Pocket Guide to Britains Farm Model Balers & Combines 1967-2007 Veloce Publishing Ltd

A book concerning Russian Limousines, and the Chinese models that were initially derived from them, has never been attempted before. This book investigates the whole story of why the Soviet Communist Party required such a bourgeois product, and how production was subsequently achieved. Following the orders of Stalin, work on the Limousines commenced during the first Five Year Plan (1927-1933) at the Putilov Works, later the Kirov Zavod, where the Leningrad L-1 was made in a limited number. From these beginnings, the Moscow and Gorky models emerged, and later the Chinese-derived types made with Russian aid during the late 1950s. Covering all of these models, up to the last one produced in 2003, and featuring full specifications translated from the relevant primary sources in Russian and Chinese literature, this is a meticulous and unique account of a previously neglected subject.
