This paper discusses commodity prices might serve as a useful leading indicator of inflation, based on the relative importance of flexible auction markets for the determination of these prices. They thus may have a tendency to respond relatively quickly, especially in response to monetary disturbances. Estimation of alternative commodity-price indexes, in which the weights are chosen so as to minimize

the residual variance in aggregate inflation regressions, was not fully successful. The commodity prices do have a useful role to play as an aid in predicting inflation, so long as one is careful to interpret the relationships qualitatively and in the context of more general macroeconomic developments. The ratio of consumer to commodity price movements' changes over time, and the relative price of commodities undergoes long sustained swings; nonetheless, the qualitative linkages are quite evident in the data. Perhaps most importantly, turning points in commodity-price inflation frequently precede turning points in consumer-price inflation for the large

industrial countries as a group.

Legare Street Press

In 2011, at the height of tension between the British and Iranian governments, travel writer Lois Pryce found a note left on her motorcycle

outside the Iranian

Embassy in London: ... I

wish that you will visit Iran so you will see for yourself about my country. WE ARE NOT

TERRORISTS!!! Please

come to my city, Shiraz. It is very famous as the

friendliest city in Iran, it is the city of poetry and gardens and wine!!! Your

Persian friend, Habib

Intrigued, Lois decides to ignore the official

warnings against travel

(and the warnings of her friends and family) and

sets off alone on a 3,000 mile ride from Tabriz to

Shiraz, to try to uncover the heart of this most

complex and incongruous country. Along the way,

she meets carpet sellers

and drug addicts, war

veterans and housewives, doctors and teachers -

people living ordinary lives under the rule of an extraordinarily strict Islamic government. Revolutionary Ride is the story of a people and a country. Religious and hedonistic, practical and poetic, modern and rooted in tradition - and with a wild sense of humour and appreciation of beauty despite the comparative lack of freedom - this is real contemporary Iran.
