A Longitudinal Study of Writing and Learning at the College Level Corwin Press

This highly multidisciplinary collection discusses an increasingly important

topic among scholars in science and technology studies: objectivity in science. It features eleven essays on scientific objectivity from a variety of perspectives, including philosophy of science, history of science, and feminist philosophy. Topics addressed in the book include the nature and value of scientific objectivity, the history of objectivity, and objectivity in scientific journals and communities. Taken individually, the essays supply new methodological tools for theorizing what is valuable in the pursuit of objective knowledge and for investigating its history. The essays offer many starting points, while suggesting new avenues of research. Taken collectively, the essays exemplify the very virtues of objectivity that they theorize—in reading them together, the reader can sense various anxieties about the dangerously subjective in our age and locate commonalities of concern as well as differences of approach. As a result, the volume offers an expansive vision of a research community seeking a communal

understanding of its own methods and its own epistemic anxieties, struggling to enunciate the key problems of knowledge of our time and offer insight into how to overcome them.

Writing Guide for Public Policy is loaded with rich real world examples that help you master the process of translating

insightful policy analysis into clear policy recommendations. Known for his conversational writing style, author Andrew Pennock offers step-by-step instructions on how to write for a variety of genres in a style that policy makers expect. Focusing on an audience-centered approach, you will first learn how to create and organize an argument based on the unique needs and expectations of policy makers. The book then moves onto the nuts and bolts of how to write for a policy audience, with special consideration of ethics and working with visual and technical material. Finally, the book provides practical guidance on writing in specific policy genres: policy memos, briefs, Op-Eds, press

releases, written testimony, social media, and emails. Key Features: Basic policy writing tasks help you write sentences, paragraphs and sections that make sense to readers (and to professors!). You will also learn how to create professional quality tables and figures that support your argument as well as how to package these components together effectively to communicate with policy makers. Six separate chapters for various public policy genres (issue briefs, legislative histories, decision memos, testimony, op-eds, and new media) provide you with an overview of the genre, several examples, and an analysis of each example. Current examples from across the field of public policy keep

you engaged by connecting the concepts to current topics such as public health (the opioid epidemic, Native-American healthcare, lead poisoning), education (early childhood, school governance), criminal justice (sexting laws, ban-the-box), business regulation (AirBnB, renewable energy, drug pricing), security policy (cyber-security, foreign asset control), and social policy (physician assisted suicide).

A clerk called Coinman can't stop jingling the coins in his pocket. It's a simple addiction, but it's one that comes to rule his life. His real name is Kesar, but his lifelong habit earned him his nickname, and because he's a bit of a shrinking violet, he accepted it.

Third Edition Rowman style, formats and & Littlefield The Sociology Student Writer's Manual 7/E is a practical guide to research, reading, and writing in sociology. It focuses on the crafts of writing and scholarship by providing the basics of grammar,

source citation, and then introduces students to a variety of rich information resources including the sociological journals and the Library of Congress. Part 2 prepares students to research, read, write, review, and critique sociology scholarship. Finally, Part 3 provides advanced exercises in observing culture, socialization, inequality, and ethnicity and race. **Florida Highways** Cambridge University Press StargirlKnopf Books for Young Readers *Time To Know Them* Clerisy Press This game situates students in the Multiparty Negotiating Process taking place at the World Trade Center in Kempton Park in 1993. South Africa is facing tremendous social anxiety and violence. The

object of the talks, and of the game, is to reach consensus for a constitution that will guide a post-apartheid South Africa. The country has immense racial diversity--white, black, Colored, Indian. For the negotiations, however, race turns out to be less critical than cultural, economic, and political diversity. Students are challenged to understand a complex landscape and to navigate a surprising web of alliances. The game focuses on the problem of transitioning a society conditioned to profound inequalities and harsh political repression into a more democratic, egalitarian system. Students will ponder carefully the meaning of democracy as a concept and may find that justice and equality are

not always comfortable partners with liberty. While for the majority of South Africans, universal suffrage was a symbol of new democratic beginnings, it seemed to threaten the lives, families, and livelihoods of minorities and parties outside the African National Congress coalition. These deep tensions in the nature of democracy pose important questions about the character of justice and the best mechanisms for reaching national decisions. Today's first year composition classrooms are largely reflective of the writing pedagogy that has been used for the last 200 years. Unfortunately, this methodology does not meet the research or writing needs of today's college and university students. Burns and MacBride were determined to make their first year composition courses more relevant to their students and sought a way to revolutionize their syllabus to do so. Building on the work of Tom Romono, Nancy Mack, Camille Allen, Sirpa Grierson, Melinda Putz (and others), Burns and MacBride set out to determine if a multigenre research project could better teach their students research, writing, and critical thinking skills than a traditional research-based essay. The findings of their semester-long study indicated that not only does a MGRP teach these skills, but it far surpasses a traditional essay in teaching engagement, intellectual creativity, and transferable writing

skills. Burns and MacBride demonstrate two different ways to integrate a multigenre research project into the college composition classroom. *Nickel and Dimed* Stargirl
