The X-Plane 11 Flight

Management System The Laminar Research / X-Plane 11 FMS resembles a system built by Collins and found in regional airliners, and is similar in operation to the one used in Boeing aircraft, including the 737 (illustrated in this manual). Rival systems are built by Honeywell and Thales for use in Boeing and Airbus aircraft.

FSX/P3D Brown/cream tinted cockpit textures for Boeing 757 and B767 and other aircraft using the Boeing 737-800 VC. I have tried to edit the textures of the default 737 VC to more simulate the colours of a Boeing 757 or 767. If you don't like them reverting to the default is easy - just replace with the original vc textures.

GPS with the Default 737-800 MFD - MS FSX | FSX-SE Forum ...

When using the GPS nav system to fly a flight plan that has been loaded into the default 737-800 autopilot, the MFD will indicate the distance to the fix, whatever it is (VOR, intersection, airport, etc) but does not display the name

of the fix anywhere that I can find. Even the simple stand-alon...
