"Rewire the Black mind to Prosper" was written as an aide to a rapid comprehension of essential common-sense ideas, to give Africans in America, perhaps of all levels of Academia, an opportunity to understand how to control situations and gain an edge over a mentality of defeat in an unjust society. All in efforts to increase understanding of and or perhaps power over any case in all areas of Life. In retrospect, there are no truly original ideas to be had in this world. Many ideas come to us formulated from prior influences or knowledge gained from others. As any Book that is inscribed, over the course of thousands of years "Rewire the Black Mind to Prosper" perhaps, will bring a new common-sense idea to help an oppressed Melanated People to learn how to maneuver as a God and maybe, gain Self-Empowerment in Society. [NEW YORK TIMES BUSINESS BEST SELLER](#) • A suspenseful behind-the-scenes look at the dysfunction that contributed to one of the worst tragedies in modern aviation: the 2018 and 2019 crashes of the Boeing 737 MAX. An "authoritative, gripping and finely detailed narrative that charts the decline of one of the great American companies" (New York Times Book Review), from the award-winning reporter for Bloomberg. Boeing is a century-old titan of industry. It played a major role in the early days of commercial flight, World War II bombing missions, and moon landings. The planemaker remains a cornerstone of the U.S. economy, as well as a linchpin in the awesome routine of modern air travel. But in 2018 and 2019, two crashes of the Boeing 737 MAX 8 killed 346 people. The crashes exposed a shocking pattern of malfeasance, leading to the biggest crisis in the company's history—and one of the costliest corporate scandals ever. How did things go so horribly wrong at Boeing? Flying Blind is the definitive exposé of the disasters that transfixed the world. Drawing from exclusive interviews with current and former employees of Boeing and the FAA; industry executives and analysts; and family members of the victims, it reveals how a broken corporate culture paved the way for catastrophe. It shows how in the race to beat the competition and reward top executives, Boeing skimped on testing, pressured employees to meet unrealistic deadlines, and convinced regulators to put planes into service without properly equipping them or their pilots for flight. It examines how the company, once a treasured American innovator, became obsessed with the bottom line, putting shareholders over customers, employees, and communities. By Bloomberg investigative journalist Peter Robison, who covered Boeing as a beat reporter during the company's fateful merger with McDonnell Douglas in the late '90s, this is the story of a business gone wildly off course. At once riveting and disturbing, it shows how an iconic company fell prey to a win-at-all-costs mentality, threatening an industry and endangering countless lives. An urgent, transformative guide to dealing with disasters from one of today 's foremost thinkers in crisis management. The future may still be unpredictable, but nowadays, disasters are not. We live in a time of constant,

---

consistent catastrophe, where things more often go wrong than they go right. So why do we still fumble when disaster hits? Why are we always one step behind? In *The Devil Never Sleeps*, Juliette Kayyem lays the groundwork for a new approach to dealing with disasters. Presenting the basic themes of crisis management, Kayyem amends the principles we rely on far too easily. Instead, she offers us a new framework to anticipate the “devil’s” inevitable return, highlighting the leadership deficiencies we need to overcome and the forward thinking we need to harness. It’s no longer about preventing a disaster from occurring, but learning how to use the tools at our disposal to minimize the consequences when it does. Filled with personal anecdotes and real-life examples from natural disasters like the California wildfires to man-made ones like the Boeing 737 MAX crisis, *The Devil Never Sleeps* is a guide for governments, businesses, and individuals alike on how to alter our thinking so that we can develop effective strategies in the face of perpetual catastrophe.
