Book 1, SIMPLE
SOLUTIONS for Planet
Earth, dealt with energy and
the environment. SIMPLE
SOLUTIONS for
Humanity provides ultimate
answers for our society and
beyond. Ever wonder if
there could ever be a way to
end crime and war forever,
or the prospects for
immortality, or a better
educational system, or the
reality of extraterrestrial

intelligence, or the future of
religion? If all the above can
be satisfactorily resolved,
then, just in case there is no
afterlife, where is the best
place to live on Earth today?
Simple solutions, of course,
are hardly that. How to end
crime? What about three
strikes and you're dead! Sure
this should work, but it's not
morally rational. The
solution to war is incredibly
simple. Just read the book
and find out how. Scientists
are getting very close to
determining a way to disarm
our aging gene. When will
this happen? Our
educational system is flawed.
Be prepared to be shocked
by the Stanford
Marshmallow Study. Then
find out that our terrible
student scores relative to the
developed world might not
be worth all the anguish.
The USA will prevail

because of our superiority in.... Could the solution for world peace or curing cancer be streaming in from space? The Search for Extraterrestrial Intelligence could someday soon detect what would be the most monumental discovery since the invention of God. How can religion overcome the immorality of purporting to promise an afterlife WITHOUT ANY PROOF? A Golden Evolution is suggested. Are you one of those who largely wasted your life looking out only for yourself, family and friends? Could there be a higher calling? You, too, can make a positive difference. Rainbow Vision is explained to equip you with the tools to help save Planet Earth and Humanity.
