If Daisy and Dad swapped around, she could feed Dad porridge while SHE ate chocolate fromage frais. And she could wheel him past the neighbours all dressed in pink! Dad thinks it would be great not to have to do any cleaning or cooking but to visit the zoo and play in the park instead! An irresistibly charming picture book, wonderful for fathers and daughters (and the whole family) to share.

"Having been born a freeman, and for more than thirty years enjoyed the blessings of liberty in a free State—and having at the end of that time been kidnapped and sold into Slavery, where I remained, until happily rescued in the month of January, 1853, after a bondage of twelve years—it has been

suggested that an account of my life and fortunes would not be uninteresting to the public." -an excerpt

Air conditioning in vintage cars often falls into disrepair, as owners figure that it never really worked all that well when it was new, and assume that rejuvenation would be prohibitively expensive. In his new book, *Just Needs a Recharge: The Hack Mechanic Guide to Vintage Air Conditioning*, Rob Siegel details exactly what's needed to resurrect long-dead air conditioning in a vintage car, or install a/c in a car that never had it. In a level of detail not found in any other automotive a/c book, Rob reveals what you need to know about flare and o-ring fittings, upgrading to a rotary-style compressor and a parallel-flow condenser, making or specifying custom hoses, and selecting refrigerant so that the a/c blows cold enough to be usable. Although the book draws from Rob's BMW experience (with specifics for the BMW 2002 and 3.0CS), and concentrates on vintage a/c systems (those that have flare fittings and originally contained R12), most of the information applies to any air conditioning system, foreign or domestic, vintage or modern. Written in Rob's entertaining Hack Mechanic narrative voice, and including 240 photographs and illustrations, the book covers theory, the choice of refrigerant (R12, R134a, other EPA-approved, non-EPA-approved), legality, tools for a/c work, fittings and sizes, the compressor, the evaporator assembly and expansion valve or orifice tube, the condenser and fan, the receiver/drier or accumulator, electrical connections and compressor cycling, connecting and using manifold gauges, the basic steps for a/c rejuvenation, from-scratch a/c retrofit, making and installing hoses, flushing the system, pressure-testing and leak detection, evacuating and charging the system troubleshooting, and other things that heat up the cabin.

From the bestselling author of *My Ex-Best Friend's Wedding* comes a novel about four friends who share a passion for a beloved British television show that will change all of their lives. When the concierge of *The Alexander*, a historic Atlanta apartment building, invites his fellow residents to join him for weekly screenings of *Downton Abbey*, four very different people find themselves connecting with the addictive drama, and—even more unexpectedly—with each other... Samantha Davis married young and for the wrong reason: the security of old Atlanta money—for herself and for her orphaned brother and sister. She never expected her marriage to be complicated by love and compromised by a shattering family betrayal. Claire Walker is now an empty nester and struggling author who left her home in the suburbs for the old world charm of *The Alexander*, and for a new and productive life. But she soon wonders if clinging to old dreams can be more destructive than having no dreams at all. And then there's Brooke MacKenzie, a woman in constant battle with her faithless ex-husband. She's just starting to realize that it's time to take a deep breath and come to terms with the fact that her life is not the fairy tale she thought it would be. For Samantha, Claire, Brooke—and Edward, who arranges the weekly gatherings—it will be a season of surprises as they forge a bond that will sustain them through some of life's hardest moments—all of it reflected in the unfolding drama, comedy, and convergent lives of *Downton Abbey*.

Flickering Empire tells the fascinating yet little-known story of how Chicago served as the unlikely capital of American film production in the years before the rise of Hollywood (1907–1913). As entertaining as it is informative, Flickering Empire straddles the worlds of academic and popular nonfiction in its vivid illustration of the rise and fall of the major Chicago movie studios in the mid-silent era (principally Essanay and Selig Polyscope). Colorful, larger-than-life historical figures, including Thomas Edison, Charlie Chaplin, Oscar Micheaux, and Orson Welles, are major players in the narrative—in addition to important though forgotten industry titans, such as "Colonel" William Selig, George Spoor, and Gilbert "Broncho Billy" Anderson.

Safe Passage: Astronaut Care for

Exploration Missions sets forth a vision for space medicine as it applies to deep space voyage. As space missions increase in duration from months to years and extend well beyond Earth's orbit, so will the attendant risks of working in these extreme and isolated environmental conditions.

Hazards to astronaut health range from greater radiation exposure and loss of bone and muscle density to intensified psychological stress from living with others

in a confined space. Going beyond the body of biomedical research, the report examines existing space medicine clinical and behavioral research and health care data and the policies attendant to them. It describes why not enough is known today about the dangers of prolonged travel to enable humans to venture into deep space in a safe and sane manner. The report makes a number of recommendations concerning NASA's structure for clinical and behavioral research, on the need for a comprehensive astronaut health care system and on an approach to communicating health and safety risks to astronauts, their families, and the public.
