### AAA Autograph Dundurn

Phil Edmonston, Canada's automotive "Dr. Phil," pulls no punches. He says there's never been a better time to buy a new car or truck, thanks to a stronger Canadian dollar and an auto industry offering reduced prices, more cash rebates, low financing rates, bargain leases, and free auto maintenance programs. In this all-new guide he says: Audis are beautiful to behold but hell to own (biodegradable transmissions, "rodent snack" wiring, and mind-boggling depreciation) Many 2011-12 automobiles have "chin-to-chest head restraints, blinding dash reflections, and dash gauges that can't be seen in sunlight, not to mention painful wind-tunnel roar if the rear windows are opened while underway) Ethanol and hybrid fuel-saving claims have more in common with Harry Potter than the Society of Automotive Engineers) GM's 2012 Volt electric car is a mixture of hype and hypocrisy from the car company that "killed" its own electric car more than a decade ago) You can save \$2,000 by cutting freight fees and "administrative" charges) Diesel annual urea fill-up scams can cost you \$300, including an \$80 "handling" charge for \$25 worth of urea) Lemon-Aid's 2011-12 Endangered Species List: the Chinese Volvo, the Indian Jaguar and Land Rover, the Mercedes-Benz Smart Car, Mitsubishi, and Suzuki

The Complete Car Cost Guide, 1998 Intellichoice Incorporated

Economists disagree on whether recent U.S. trade policies are harmful or helpful, but they all agree that there is a new trend toward focusing on results-oriented policies in specific markets and with particular trading partners.

These twelve essays by leading international economists explore crucial issues in U.S. trade policy today. Topics examined include the markets for automobile and automobile parts in the United States and Japan, the U.S. response to "unfair" trading practices such as dumping, and the effects of industry- and country-specific policies. Examples include high-technology and agricultural industries and off-shore assembly in U.S. border cities. The volume concludes that some policies can act to both protect imports and promote exports, that the threat of protectionist policies can often have effects that are as pronounced as their implementation, and that regulatory policy has as great an impact on trade and investment patterns as does trade policy itself. It will be of crucial interest to international trade economists, policy specialists, and political scientists.
