This is one of the most significant military books of the twentieth century. By an outstanding soldier of independent mind, it pushed forward the evolution of land warfare and was directly responsible for German armoured supremacy in the early years of the Second World War. Published in 1937, the result of 15 years of careful study since his days on the German General Staff in the First World War, Guderian's book argued, quite clearly, how vital the proper use of tanks and supporting armoured vehicles would be in the conduct of a future war. When that war came, just two years later, he proved it, leading his Panzers with distinction in the Polish, French and Russian campaigns. Panzer warfare had come of age, exactly as he had forecast. This first English translation of Heinz Guderian's classic book - used as a textbook by Panzer officers in the war - has an introduction and extensive background notes by the modern English historian Paul Harris. "For years, Zaya has delicately balanced his relationship with his Muslim faith and queer identity by keeping his genderqueer lover and manipulative mother apart. But when his mother ends up in the hospital on the same day his partner is leaving for pilgrimage, Zaya's worlds come crashing in on each other, opening a space for traumatic memories to resurface. Acha Bacha boldly explores the intersections between queerness, gender identity, and Islamic culture in the Pakistani diaspora. It's about the way we love, the way we are loved, and what it takes to truly accept love."--
