he shall give his angels charge over thee, to keep thee in all thy ways." Psalm 91:11 Back in 1998, my husband had an appointment in Brooklyn, NY and was proceeding fast on the Jackie Robinson Parkway bound for his destination. As he came into a curve, the concrete wall divider was on his left and a vehicle was on his right. When he cleared the curve, he faced death dead on. Straight ahead was a flatbed tow truck, the

---

kind with the sharp horizontal metal sticking out the rear end. With insufficient space between the tow truck and his vehicle and with the divider to his left and a car to his right, there was no way to go but forward, straight into the end of life as he knew it. Later on my husband said the incident might have only unfolded in seconds but back then it seemed like forever as he faced a sure fire fatality that the collision would have brought. The driver on

his right saw what was about to happen and floored it. The one behind realized as well and applied the brakes. A puff of air before impact, my husband swung right into the space made possible just then between the two cars. With a pounding heart and shaking frame, my husband continued on his way, his mind lifting the highest praise to God for the timely salvation He had given to him. Engine Code Manual Haynes

This book covers how to build Mopar's 383-, 400-, 413-ci, 440-ci engines to

these power levels. Discussed is how to select a stock or aftermarket block for the desired performance level. The reciprocating assembly is examined in detail, so you select the right design and material for durability and performance requirements. Cylinder heads and valve train configurations are crucial for generating maximum horsepower and torque and this volume provides special treatment in this area. Camshafts and lifters are compared and contrasted using
