When Janelle's grandfather dies in her arms, she sees in his eyes an answer to the undying question we all struggle with in life: Where do we go from here? By fate or by faith, she

follows the mystery-of-the-eyes to find Chaplain Barber, the man who would save her from death's sorrow and change her life forever. Chaplain George Russell Barber is the last living chaplain from the D-Day landing on Omaha Beach, June 6, 1944. He survived Normandy's bloodiest beach battle, "I dug like it was only up to me. I prayed like it was only up to God. Together, we dug that hole pretty deep." He went on to march across Europe for eleven more months without a weapon. Armed only with his Bible and his faith, Chaplain Barber preached the gospel during the most dangerous war scenes of the European theatre in World War II, "There are no atheists in foxholes." One of the last of the red-blooded American boys, Chaplain Barber tells Janelle his life history like a Little Big Man of the Greatest Generation. From the cotton fields back home to the Horse

Cavalry days, through three wars, the Space Age and the war on terrorism, his life of service grips the heart of the small town patriot and likewise spins the mind of the spiritually inquisitive. "The Bible has been known to stop a bullet, but that's not the only reason I believe." Through their conversations, prayers and meditations, Janelle and the Chaplain mix the secret ingredients for the recipe of the Red, White and Blue in you.

Boating Ford Tough Get Fords complete story in Ford Tough: 100 Years of Ford Trucks and see why they've dominated the truck market, selling 1.5 million trucks every year in the US alone. In July 1917 Ford Motor Company introduced a one-ton chassis for commercial trucks, marking what many historians feel was its official entry

into the dedicated truck business. Sure, after-market pickup beds could be added to a Model T car to convert it to a pickup, but with the debut of the rugged Model TT truck chassis, Ford was firmly in the truck market. Eight years later, Ford introduced its first factory-produced pickup, a sturdy half-ton job the public loved. During the century that has passed since that first Ford truck chassis, the F-series has become the best-selling truck in the world, and the best-selling vehicle of any type in America. Ford Tough: 100 Years of Ford Trucks tells the entire Ford truck story from the very beginning, when Ford got its start in truck production. This book

provides the history of the wide array of models Ford has built over the past century, including the Model A roadster pick-up, stylish 81C pickups, legendary 1948 F-1, Bronco, Courier, Ranchero, and Econoline.
