Some love affairs refuse to be confined... To time. To place. To this mortal coil. This novel is based on a true story. The macabre events, such

as they were, took place during the height of the Great Depression in Key West, Florida. Carl Tanzler von Cosel, an eccentric German scientist, and Elena Hoyos, a beautiful young girl, fell in love. But this is not your ordinary love affair. Some bonds endure the ravages of disease and the threat of prison, family disownment, and the devils and angels themselves. Some love affairs are stronger than death.

The aim of this book, with its superb step by step photographs and detailed diagrams is to enable every owner to understand the workings of an outboard motor (2 or 4 stroke) and be able to fix it with relative ease. It includes: an explanation of the different parts that make up the engine and how they interact; how fuel is transformed into propulsion; regular maintenance and repair worksheets to help even the

most mechanically ignorant to work on their outboard engine with confidence; the most common causes of breakdown; troubleshooting tables to allow you to diagnose and fix the most common engine problems and advice on how to winterize your outboard in one short afternoon. After reading this book, your outboard will no longer be a potential bother to you but an ally for better boating.
