Torque e-artnow sro  
This study chronicles the  
success of the Japanese car in  
America. Starting with  
Japan ' s first gasoline-  
powered car, the Takuri, it  
examines early Japanese  
inventors and automotive  
conditions in Japan; the arrival  
of Japanese cars in California  
in the late 1950s; consumer  
and media reactions to  
Japanese manufacturers; what  
obstacles they faced; initial  
sales; and how the cars gained  
popularity through shrewd  
marketing. Toyota, Honda,  
Datsun (Nissan), Mazda,  
Subaru, Isuzu, and Mitsubishi

are profiled individually from  
their origins through the  
present. An examination  
follows of the forced  
cooperation between American  
and Japanese manufacturers,  
the present state of the industry  
in America, and the possible  
future of this union, most  
importantly in the race for a  
more environmentally-sound  
vehicle.

### Decomposition

Popular Science gives our readers the information and tools to improve their technology and their world. The core belief that Popular Science and our readers share: The future is going to be better, and science and technology are the driving forces that will help make it better.

### Automotive News

"This play tracks the crumbling friendship of two Mexican men from different social classes.

Ambivalent about their aspirations and struggling for meaning in their lives, they fistfight and find forgiveness with each other over the familiar territories of love and betrayal.

Told in a structure that allows actors to go in and out of character, inviting the audience to share the universality of friendship and survival."--Page 4 of cover.

### Fuel Economy Guide
