Awarded the Nobel Prize for Literature in 1969, Samuel Beckett's influence on 20th century fiction and drama is immeasurable. Published in conjunction with the RT (Radio Telefís Éireann) Thomas Davis Lecture Series to mark the centenary of Beckett's birth, Samuel Beckett - 100 Years consists of thirteen essays by many of the foremost academics studying Beckett today. Literary luminaries such as John Banville and Anthony Cronin line up alongside philosophers Dermot Moran and Richard Kearney to delve into the psyche of the man responsible for classics such as *Murphy*, *Krapp's Last Tape*, and *Waiting for Godot*, while actors Barry McGovern and Rosemary Pountney describe what makes his works so theatrical. The book is a challenging and serious look

at Beckett's work and its impact on literature today.

The touchstone guide to running projects from the British Institute of Interior Design (BIID). By setting out actions step-by-step, this essential handbook identifies the key obligations of the interior designer at each project stage. Straightforward explanation is supplemented by invaluable checklists and templates.

Featuring crucial advice on administering construction contracts, it references the new RIBA/BIID Domestic Professional Services Contract 2020 for interior design services. Reflecting the RIBA Plan of Work 2020 and contemporary working practice, it provides a systematic operational framework that can be applied to all types of projects. Comprehensive in scope with a logical structure, it embraces the theme of collaboration within the project team. It also addresses post-occupancy evaluation, modern methods of construction and sustainability. Suitable for projects within any industry sector and practice type, from large international firms to sole practitioners, it is accessible to designers with different levels of experience.

The suspension expert's illustrated, comprehensive troubleshooting guide for dirt, street, and supermoto—with a solution to virtually any problem. Suspension is probably the most misunderstood aspect of motorcycle performance. This book, by America's premier suspension specialist, makes the art and science of suspension tuning accessible to professional and backyard motorcycle mechanics alike. Based on Paul Thede's wildly popular Race Tech Suspension Seminars, this step-by-step guide shows anyone how to make their bike, or their kid's, handle like a pro's. Thede gives a clear account of the three forces of suspension that you must understand to make accurate assessments of your suspension's condition. He outlines testing procedures that will help you gauge how well you're improving your suspension, along with your riding. And, if you're inclined to perfect your bike's handling, he even explains the black art of chassis geometry. Finally, step-by-step photos of suspension disassembly and assembly help you rebuild your forks and shocks for optimum
