The field manual provides a standardized source document for Army-wide reference on map reading and land navigation. It applies to every soldier in the army regardless of service branch, MOS, or rank. This manual also contains both doctrine and training guidance on map reading and land navigation. Part One addresses map reading and Part Two, land navigation. The appendices include an introduction to orienteering and a discussion of several devices that can assist the soldier in land navigation. For soldiers, hunters, climbers, and hikers alike, this is the definitive guide to map reading and navigation.

A Comparative Study of Thirty City-state Cultures Rowman & Littlefield

The U.S. Army's official guide to map reading, determining location, and navigating. For a soldier, knowing where you are is a matter of life and death, and so it comes as no surprise that the Army has produced the most complete, clear, and thorough guide to map reading and navigation available. The book starts with a comprehensive explanation of the meaning and uses of maps, whether photographic, planimetric (standard-style), or topographic, then proceeds to the use of those maps, discussing compass techniques, celestial navigation, and determination of distance. There is a detailed section on interpreting topographic maps, with notes on tactical considerations for differing terrain, as well as determining the ease of movement through an area. The book's crucial, well-illustrated chapters have invaluable information on: Training Strategy • Maps • Marginal Information and Symbols Grids • Scale and Distance • Direction • Overlays Aerial Photographs • Navigation Equipment and Methods Elevation Relief • Terrain Association • Mounted Land Navigation Navigation in Different Types of Terrain • Unit Sustainment There is also information on field sketching, the tricky art of map folding, units of measure and conversion factors, map symbols, orienteering, and the global positioning system (GPS).
