The Pictures Are Gone! HarperCollins

A depressed would-be groom and a runaway with a dark past collide and make a split second decision to marry. Marriage seems the only answer to both of their problems. Brian just wants a wife and a family. Aria needs safety, home, and as far away from her past as she can get. At first Aria's only logical solution is to marry the first man that proposes, but once she gets to know him she realizes what a mistake that was. Too bad they've already said "I do" After much convincing from Brian, Aria decides to head home to Iowa with him and attempt to make it work. Will Iowa be far enough away from Las Vegas and her dark past, or will it all catch up to her and prove to be too much for them to handle together? This is a story of faith, love, forgiveness, redemption and God's unfailing mercy and love for us, no matter who we've been in the past. No Deal Breakers is a stand alone in the Hanesworth Series. While all of the books take place in the same small town and feature some familiar faces, they can be read alone.

"Mining exploration investment in the Latin American and Caribbean region has increased 130 percent in the last five years, a figure which increases to 500 percent, if Chile is excluded." Governments have revamped mining legislation to enable private investment while becoming more sensitive to environmental factors. In light of this legislation, this report examines the environmental effects of artisanal, small, and medium mines in three Latin American Countries: Bolivia, Chile, and Peru. Four of the most important elements to be considered are: The age of the mine Management of tailings The heterogeneity of the artisanal and small mine sectors The increasing need to take cultural considerations into account in the decision making process. The paper contains results of the studies on the various mining sectors, strategy and policy recommendations, and country study summaries.

A dirt bike rider flies off a ramp and soars the length of a football field. He lands safely with a thud. In wild stunts like this, the technology of an off-road vehicle can mean the difference between life and death. Off-road vehicles need super-tough suspension systems. Some ATVs have tires without air to battle rugged terrain without going flat. The SkyRunner dune buggy even has a parachute that can lift it into the air! Take young readers on a journey through the technology that makes off-road vehicles so amazing.

Robert Eisenhauers "Winterrules" focuses on the complex and ambivalent interrelation between lived experience (autobiography) and cultural memory. "Winterrules," prompted by the old question, 'What purpose does poetry serve in an age deprived of poetic sensibility?' seeks to situate the authors personal experience within a field of cross-cultural reference, responding to aspects of the Western and Far Eastern cultural heritage, as well as scenes from contemporary life.

"Winterrules" enlivens the reading experience through vivid, sometimes jarring juxtapositions, such as Tinker Toys in outer space or Dantes vision of hell. Eisenhauers wide-ranging travels are reflected in vignettes taken from the hard roads and wild coasts of North America, Europe, Mexico and the Greek Isles. While the dominant mood is serious, the poetic texts gathered here often approach their subjects with an objectivity combining clinical attachment with light-hearted engagement. As sailor, biker, teacher, translator and scholar, Eisenhauer takes the reader on a memorable voyage.

A young female student of anatomy, Lam, on her first day in the dissection room, encounters a cadaver of a young woman which for administrative reasons is taken away. Several months later she is given a head to dissect, and recognises who must have been the head's former owner. Initial interest is purely anthropological, but soon becomes forensic when the possibility of unnatural death is raised. The police do not follow this through, and Lam determines, despite threat of career ruination, she must pursue an investigation herself. Ultimately her efforts are rewarded by the forensic conclusions.
