Jet skis are immensely popular coastal 'playthings' - but they need careful handling and maintenance. This is a highly illustrated hands-on manual providing advice, hints and tips on choosing, driving, handling, maintaining and repairing a jet ski - the complete owner's manual. Many owners will prefer to service and maintain their own machine (much like they would with an outboard motor), rather than take it to a service agent, and the step by step photos in this book will enable them to do just this. This is a brand new, highly illustrated step-by-step guide for the jet ski owner (of which there are many in the UK alone) which provides helpful advice on all the aspects of ownership, handling and maintenance. There is no other book on the market which does this.

In the last 20 years I have been personally involved with PROFIBUS: teaching it at the University, working on projects and leading workshops for industry. During this time, various descriptions and guides to different aspects of PROFIBUS were developed. I was helped in this by the contacts I had with industry and a range of experts in my capacity as chairman of PROFIBUS Switzerland and head of the PROFIBUS Competence Centre (PICC) at the Bern University of Applied Sciences. I have now brought these documents together in the form of a manual. Its purpose is to simplify entry to the world of PROFIBUS for a wider public. Now I generated an electronic book version with active links for the usage on iPad or Android tablet computers.

If you answered yes to any of these questions, then Bible Synopsis is for you! Bible Synopsis is a "Reader's Digest" version of the Bible. Each chapter of the Bible is condensed into a clear and concise summary-no "thee's and thou's"-giving you "bottom-line," who-did-what type information. This course provides the foundation of Coach Simpson's offensive philosophy. Coach believes in the monikers that "Less is More" and the "Rule of 3", which both were evident in the explanation of the offense. His explanations were clear and concise, and the presentations were easy to follow." - Todd Knipp "This is absolutely amazing. Coach Simpson does an excellent job of explaining his system. Whether you're a young coach or an experienced coach this is a must see. You can easily see why he is a successful coach. His detail and organization is on point and I cannot wait to learn more from Coach Simpson." - Mike Kloes "I've been following coach Simpson for a while now and it's very clear to me that even though I may not be a HC, we have similar philosophies. If you are a Wing T guy looking for ways to "Modernize" your offense, or a Spread guy looking for an effective and efficient run game this is the offense you should be looking at!" - Coach Sheffer "The course by Coach Simpson was quite helpful. As the new Head Coach of a small school - the Gun T system is going to help us be successful right away. Being a spread coach for the last 8-9 years, this system easily blends the best of both worlds of spread and wing-." - Mike Wilson "Coach Simpson's Gun-T Offense is dynamic and efficient. This course gets into the foundation of building blocks of the Gun-T offense and what you are trying to do offensively to be as successful as possible." - Austin Pink "Amazing detail on numerous variations of attaching RPO's to your Bucksweep. Keeps it simple yet extremely informative. Great Job Coach Simpson, you made me a believer! Highly recommend!" - Mike Turso "Coach Simpson does an awesome job explaining his system, and he does it a way that people like myself who are not familiar with RPO's can understand!" - Coach Coleman
