### Everything You Need To Know About 1979-1993 Foxbody Mustangs

The Ford Mustang is a series of American automobiles manufactured by Ford. In continuous production since 1964, the Mustang is currently the longest-produced Ford car nameplate. Currently in its

sixth generation, it is the fifth-best selling Ford car nameplate. The namesake of the "pony car" automobile segment, the Mustang was developed as a highly styled line of sporty coupes and convertibles ...

### Ford Mustang - Wikipedia

Both the V-8 and Mustang's V-6 offered smoother running via viscous (fluid-filled) engine mounts, an upgrade taken from the 1985 Ford Mustang SVO. Buyers this year also enjoyed a longer anti-corrosion warranty, extra sound-deadening material, and a more convenient single-key locking system. *Mustang Scott Drake LED Gauge Light Kit 1979-1993 Installation Mustang BBK Chrome Equal Length Shorty*

1983 Ford (USA) Mustang 3gen GLX Convertible full range specs

The third-generation Mustang was produced by Ford from 1978 until 1993. Being built on Ford's Fox platform, it is commonly referred to as the Fox-body Mustang. It evolved through a number of sub-models, trim levels, and drivetrain combinations during its production life. It underwent updates for 1987, and for a time seemed destined for replacement with a front-wheel drive Mazda platform.

### **1983 Ford (USA) Mustang 3gen GT Hatchback full range specs**

In the early '80s, Ford reassured Mustang enthusiasts that performance was a priority. 1982 saw the return of the Mustang GT, and the 5.0 engine was brought back in '83. But in 1984, the first SVO Mustang was produced, making it a special year. This performance-oriented package showed the true potential of a turbocharged engine.

### 83 Mustang Engine Specs - widgets.uproxx.com

The engine was rate a 145 horsepower and can be identified as a W-code on the door data tag, the stock 2.3L 4-cylinder engine is designated by an A-code. These Turbo GT's were also visually distinctive with their unique hood scoops.

1983 is an eventful year. The Mustang can be purchased as a convertible for the first time since 1973 and four trim packages are available. The 5.0 L V8 is one step closer to redefining the modern Pony Car while an EFI turbo option elicits praise from the media and pause from the public. The convertible returns as a GLX or GT, while the L, GL, GLX were available as a 2-door coupe or 3-door hatch.
